Cautionary Note – Forward-Looking Information

Certain matters discussed in this presentation include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements that are not statements of historical facts are, or may be deemed to be, forward-looking statements. Such forward-looking statements are based on historical performance and current expectations, estimates, forecasts and projections about our future financial results, goals, plans, commitments, strategies and objectives, particularly related to future load growth, revenues, expenses, capital expenditures and rate recovery, financial resources, regulatory matters, and the scope and expense associated with future environmental regulation. Such statements involve inherent risks, assumptions and uncertainties, known or unknown, including internal or external factors that could delay, divert or change any of them, that are difficult to predict, may be beyond our control and could cause our future financial results, goals, plans and objectives to differ materially from those expressed in, or implied by, the statements. Words such as "believe," "expect," "anticipate," "estimate," "could," "should," "intend," "will," "commit," "target," "plan" and other similar words, and words relating to goals, targets and projections, generally identify forward-looking statements. Both MGE Energy, Inc. ("MGE Energy" or the "Company"), and Madison Gas and Electric Company ("MGE") caution investors that these forward-looking statements are subject to known and unknown risks and uncertainties that may cause actual results to differ materially from those projected, expressed or implied. Those risks and uncertainties include those described in MGE Energy's Annual Report on Form 10-K for the year ended December 31, 2024 (the "2024 Form 10-K"), under the heading "Risk Factors" and elsewhere, and in other reports filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this presentation. MGE Energy and MGE undertake no obligation to publicly update or revise any forward-looking statement to reflect events or circumstances after the date of this presentation, whether as a result of new information, future events, changed circumstances or otherwise, except as required by law.

Company Mission and Values

MGE Energy is an investor-owned public utility holding company headquartered in the state capital of Madison, Wis. MGE Energy is the parent company of MGE, your community energy company. With roots in the community dating back more than 150 years, the utility provides affordable natural gas and electric service in south-central and western Wisconsin.

Safety

Safety is a core value at MGE. The safety of our employees, customers and communities is our top priority.

Reliability

We invest in our people and in our systems to help ensure top-ranked energy reliability that helps to maintain the economic health and vitality of the communities we serve.

Sustainability

With a commitment to transparency, accountability and continuous improvement, we take a holistic and proactive approach to sustainable practices company-wide.

Equity

We are committed to equity and inclusion in our service to our customers, in our workplace and in our broader community, and we value diverse perspectives, ideas, cultures and backgrounds.

Engagement

We are dedicated to engagement, partnership and collaboration to best serve our customers and the broader community.

Company Highlights

Diversified Customer Base and Revenue Profile

Resilient Revenue Stream and Customer Base

- Electric service to ~167,000 customers located in the city of Madison and adjacent areas
 - 87% residential; 13% commercial or industrial
 - Accounts for ~74% of regulated revenue
- Natural gas to ~178,000 customers
 - 90% residential; 10% commercial or industrial
 - Accounts for ~26% of regulated revenue

Strong Financial Profile

Stable Earnings Growth with Strong Balance Sheet

- Predominantly regulated earnings
- Strong liquidity and cash position
- Conservative financial policies that are designed to achieve strong credit quality
- MGE's Credit Ratings⁽²⁾
 - S&P: AA- (Stable)
 - Moody's: Aa2 Secured (Stable)
A1 Unsecured (Stable)

Regulated, Highly Visible Growth

Historical 5-Year EPS CAGR of 5.8%, Regulated PPE⁽¹⁾ CAGR of 6.8%

- Forecasted capital investment of ~\$1.4B from 2025 through 2029
- 49 consecutive years of dividend increases
- Premium service territory with constructive regulation
- Forward-looking test years
- Ability to work cooperatively with large customers to tailor a local renewable energy solution

Sustainable Investment

Seeking Net-Zero Carbon Electricity by 2050

- Targeting carbon reduction of $\geq 80\%$ from 2005 levels by 2030
- Plan to eliminate coal as energy source by end of 2032
- Decarbonizing generation fleet by transitioning to clean energy, such as wind and solar
- Electrifying transportation

(1) Property, plant and equipment, net

(2) A credit rating is not a recommendation to buy, sell or hold securities and may be lowered or withdrawn by the rating agency at any time

Service Territory Highlights

MGE's service territory is a growing and diverse community of urban, suburban and rural communities. The Madison area and Dane County lead the state of Wisconsin in population growth.

- Seat of State government
- Home to the flagship University of Wisconsin-Madison
- Robust biotech industry and entrepreneurial community
- 2.8% unemployment, which is below U.S. average
- Madison ranks 6th best place to live [Source: U.S. News and World Report (2024)]

All contribute to the economic resiliency of MGE's service territory.

Earnings and Dividends Growth

Focused on Sustainability and Reliability

Projected Capital Expenditures

- See Cautionary Note - Forward-Looking Information at the beginning of this presentation.
- Forecasted and actual capital expenditures do not include Allowance for Funds Used During Construction (AFUDC). Forecasted capital expenditures include future projects which will require MGE to request and obtain approval from the Public Service Commission of Wisconsin (PSCW).

Expanding Generation and Storage Portfolio

Project	Source	MGE Nameplate Capacity	MGE Investment (\$M)	MGE Ownership Interest	Estimated In-Service Date
Paris	Battery	11 MW	\$25	10%	June 2025
Darien ^(a)	Solar/Battery	25 MW/7.5 MW	\$63	10%	March 2025 Solar 2026 Battery
Koshkonong ^(a)	Solar/Battery	30 MW/16.5 MW	\$104	10%	2026 Solar 2027 Battery
Sunnyside ^(a)	Solar/Battery	20 MW/40 MW	\$112	100%	2026 Solar 2027 Battery
High Noon ^(a)	Solar/Battery	30 MW/16.5 MW	\$99	10%	2027
Ursa ^(b)	Solar	20 MW	\$46	10%	2027
Badger Hollow ^(b)	Wind	11.2 MW	\$36	10%	2027
Whitetail ^(b)	Wind	6.7 MW	\$23	10%	2027
Forward Repower ^{(b)(c)}	Wind	18 MW	\$14	13%	2027
Columbia Energy Dome ^(a)	Storage	3 MW	\$17	19%	2027
Dawn Harvest ^(b)	Solar	15 MW	\$34	10%	2028
Good Oak ^(b)	Solar	9.8 MW	\$22	10%	2028
Gristmill ^(b)	Solar	6.7 MW	\$15	10%	2028
Saratoga ^(b)	Solar/Battery	15 MW/5 MW	\$46	10%	2028

(a) MGE received PSCW approval to recover 100% AFUDC

(b) Pending regulatory approval

(c) Forward Wind Repower project will not increase in MGE's ownership interest or nameplate capacity

Constructive Regulatory Environment

Both S&P and Moody's view the Wisconsin regulatory environment as highly credit supportive with timely operating and capital cost recovery and view MGE's relationship with the PSCW as constructive.

Supportive regulatory framework including:

- Forward-looking test years
- Historical approval of various expense deferrals
- Fuel Rules (2% bandwidth) and Gas Cost Recovery Mechanism
- Preapproval from regulator for major construction projects
- Current return on 50% of CWIP or 100% AFUDC on major construction projects
- Escrow treatment received for transmission, Elm Road Generating Station, pension and OPEB, and bad debt expense
 - Approximately 37% of MGE's 2024 utility O&M expenses receive escrow treatment
- Deferral treatment for changes in legislation impacting tax credits

PSCW Regulators

WISCONSIN COMMISSIONERS	PARTY	TERM BEGAN	TERM ENDS
Summer Strand (Chair)	D	Mar 2023	Mar 2029
Kristy Nieto*	D	Feb 2024	Mar 2031
Marcus Hawkins*	D	Apr 2024	Mar 2027

* Pending confirmation

- Recent appointments of PSCW Commissioners and confirmation of Chair
- Constructive rate outcomes and continued support of construction projects
- PSCW Commissioners remain focused on stability and prudent management of the regulatory compact

Public Service Commission of Wisconsin:

- Gubernatorial appointment, Senate confirmation
- Chair: Gubernatorial appointment
- 6-year staggered terms

Governor Tony Evers (D)

- Next gubernatorial election in 2026

Approved/Proposed Rate Case Parameters

MGE filed a rate case application for test years 2026 and 2027 on April 2, 2025. PSCW decision expected by the end of 2025, with new rates effective January 1, 2026.

TERMS (\$000s where applicable)	APPROVED 2024 TY	APPROVED 2025 TY	PROPOSED 2026 TY	PROPOSED 2027 TY
Average Electric Rate Base	\$1,185,550	\$1,241,502	\$1,362,320	\$1,549,683
Average Gas Rate Base	\$335,533	\$341,369	\$378,582	\$399,304
Average Common Stock Equity	\$917,952	\$945,483	\$1,123,351	\$1,186,265
Regulatory Equity Layer	56.13%	56.06%	56.08%	56.04%
Authorized ROE	9.70%	9.70%	10.00%	10.00%
Increases in Base Rates	1.54% Elec 2.44% Gas	4.17% ¹ Elec 1.32% Gas	4.89% Elec 2.33% Gas	4.33% Elec 2.16% Gas

¹ The PSCW approved a 2025 Fuel Cost Plan in December 2024. The plan lowered the 2025 increase in electric rates to 2.63%, reflecting lower expected fuel costs.

Customer Affordability

Average residential electric customer bill as percentage of Wisconsin median household income

MGE works hard to keep costs at an affordable level for all customers. An MGE residential electric customer bill as a percentage of customer wallet at 1.51% is below the Wisconsin utility peer average of 1.67%.

MGE's affordability as a percentage of customer wallet has improved 29% since 2013.

Note: A credit rating is not a recommendation to buy, sell or hold securities and may be lowered or withdrawn by the rating agency at any time.

Transmission Investment Outlook

MGE Energy anticipates material transmission investment opportunities later this decade through ATC.

- MGE Energy holds 3.6% equity ownership interest in ATC.

ATC projects an acceleration of capital expenditures through the end of the decade, with 2025-2029 projected investment of ~\$5.4 billion driven by generator interconnections, asset renewal and MISO Long Range Transmission Plan (LRTP).

LRTP Tranche 1 represents ~\$1.2 billion investment opportunity for ATC.

- Projected to begin in 2025 and occur primarily in the last few years of this decade.

LRTP Tranche 2 planning is underway, expected to drive investment for ATC in 2030 and beyond.

- ~\$2.0 billion investment opportunity for projects expected to be directly assigned to ATC.
- ~\$1.8 billion potential incremental investment opportunity for projects subject to competition in or connected to ATC's footprint.

Note: Projected capital expenditures are from ATC forecasts available via www.atcllc.com/oasis-directory. Does not include pending affected system impact studies, future generator interconnection queues or LRTP Tranche 2. Capital investments by ATC are expected to be funded through a combination of internally generated cash flow, debt and investor contributions. As opportunities arise, MGE Energy plans to make additional investments in ATC through voluntary capital calls based upon its pro rata equity ownership interest in ATC.

Transition Toward Cleaner Energy

To achieve its carbon reduction goals, MGE is:

- Transitioning to a more environmentally sustainable energy supply
- Providing customers with options they want today and in the future
- Helping customers use energy efficiently and manage future costs
- Providing a dynamic electric grid which enables and integrates new energy technologies
- Deepening engagement with community
- Ensuring all customers benefit from new technologies

Track record of accelerating pace of decarbonization

- MGE's clean energy transition has reduced emissions while maintaining top-ranked electric reliability, strengthening key infrastructure and providing affordable power to customers

Expected to end the use of coal as a generation fuel source

- Retiring the coal-fired Columbia Energy Center
 - Retirement will eliminate ~2/3 of MGE's ownership of coal-fired generation capacity
- Enhancing fuel flexibility at Elm Road Generating Station
 - Elm Road units are expected to be fully transitioned away from coal by end of 2032
 - Repowering will eliminate coal-fired generation from MGE's portfolio of owned resources

MGE continues to evaluate additional investments in cost-effective, clean energy projects to maintain its top-ranked electric reliability and to achieve its environmental and sustainability goals.

Targeting carbon emissions	
2005	Baseline year
 2019	Announced Net-Zero Carbon Electricity Goal
 2024	Achieved ~40% Reduction
 2030	Targeting ~80% Reduction
 2050	Targeting Net-Zero Carbon Electricity
Our net-zero goal includes our fossil-fueled electric generation facilities (Scope 1) and purchased power for resale (Scope 3).	

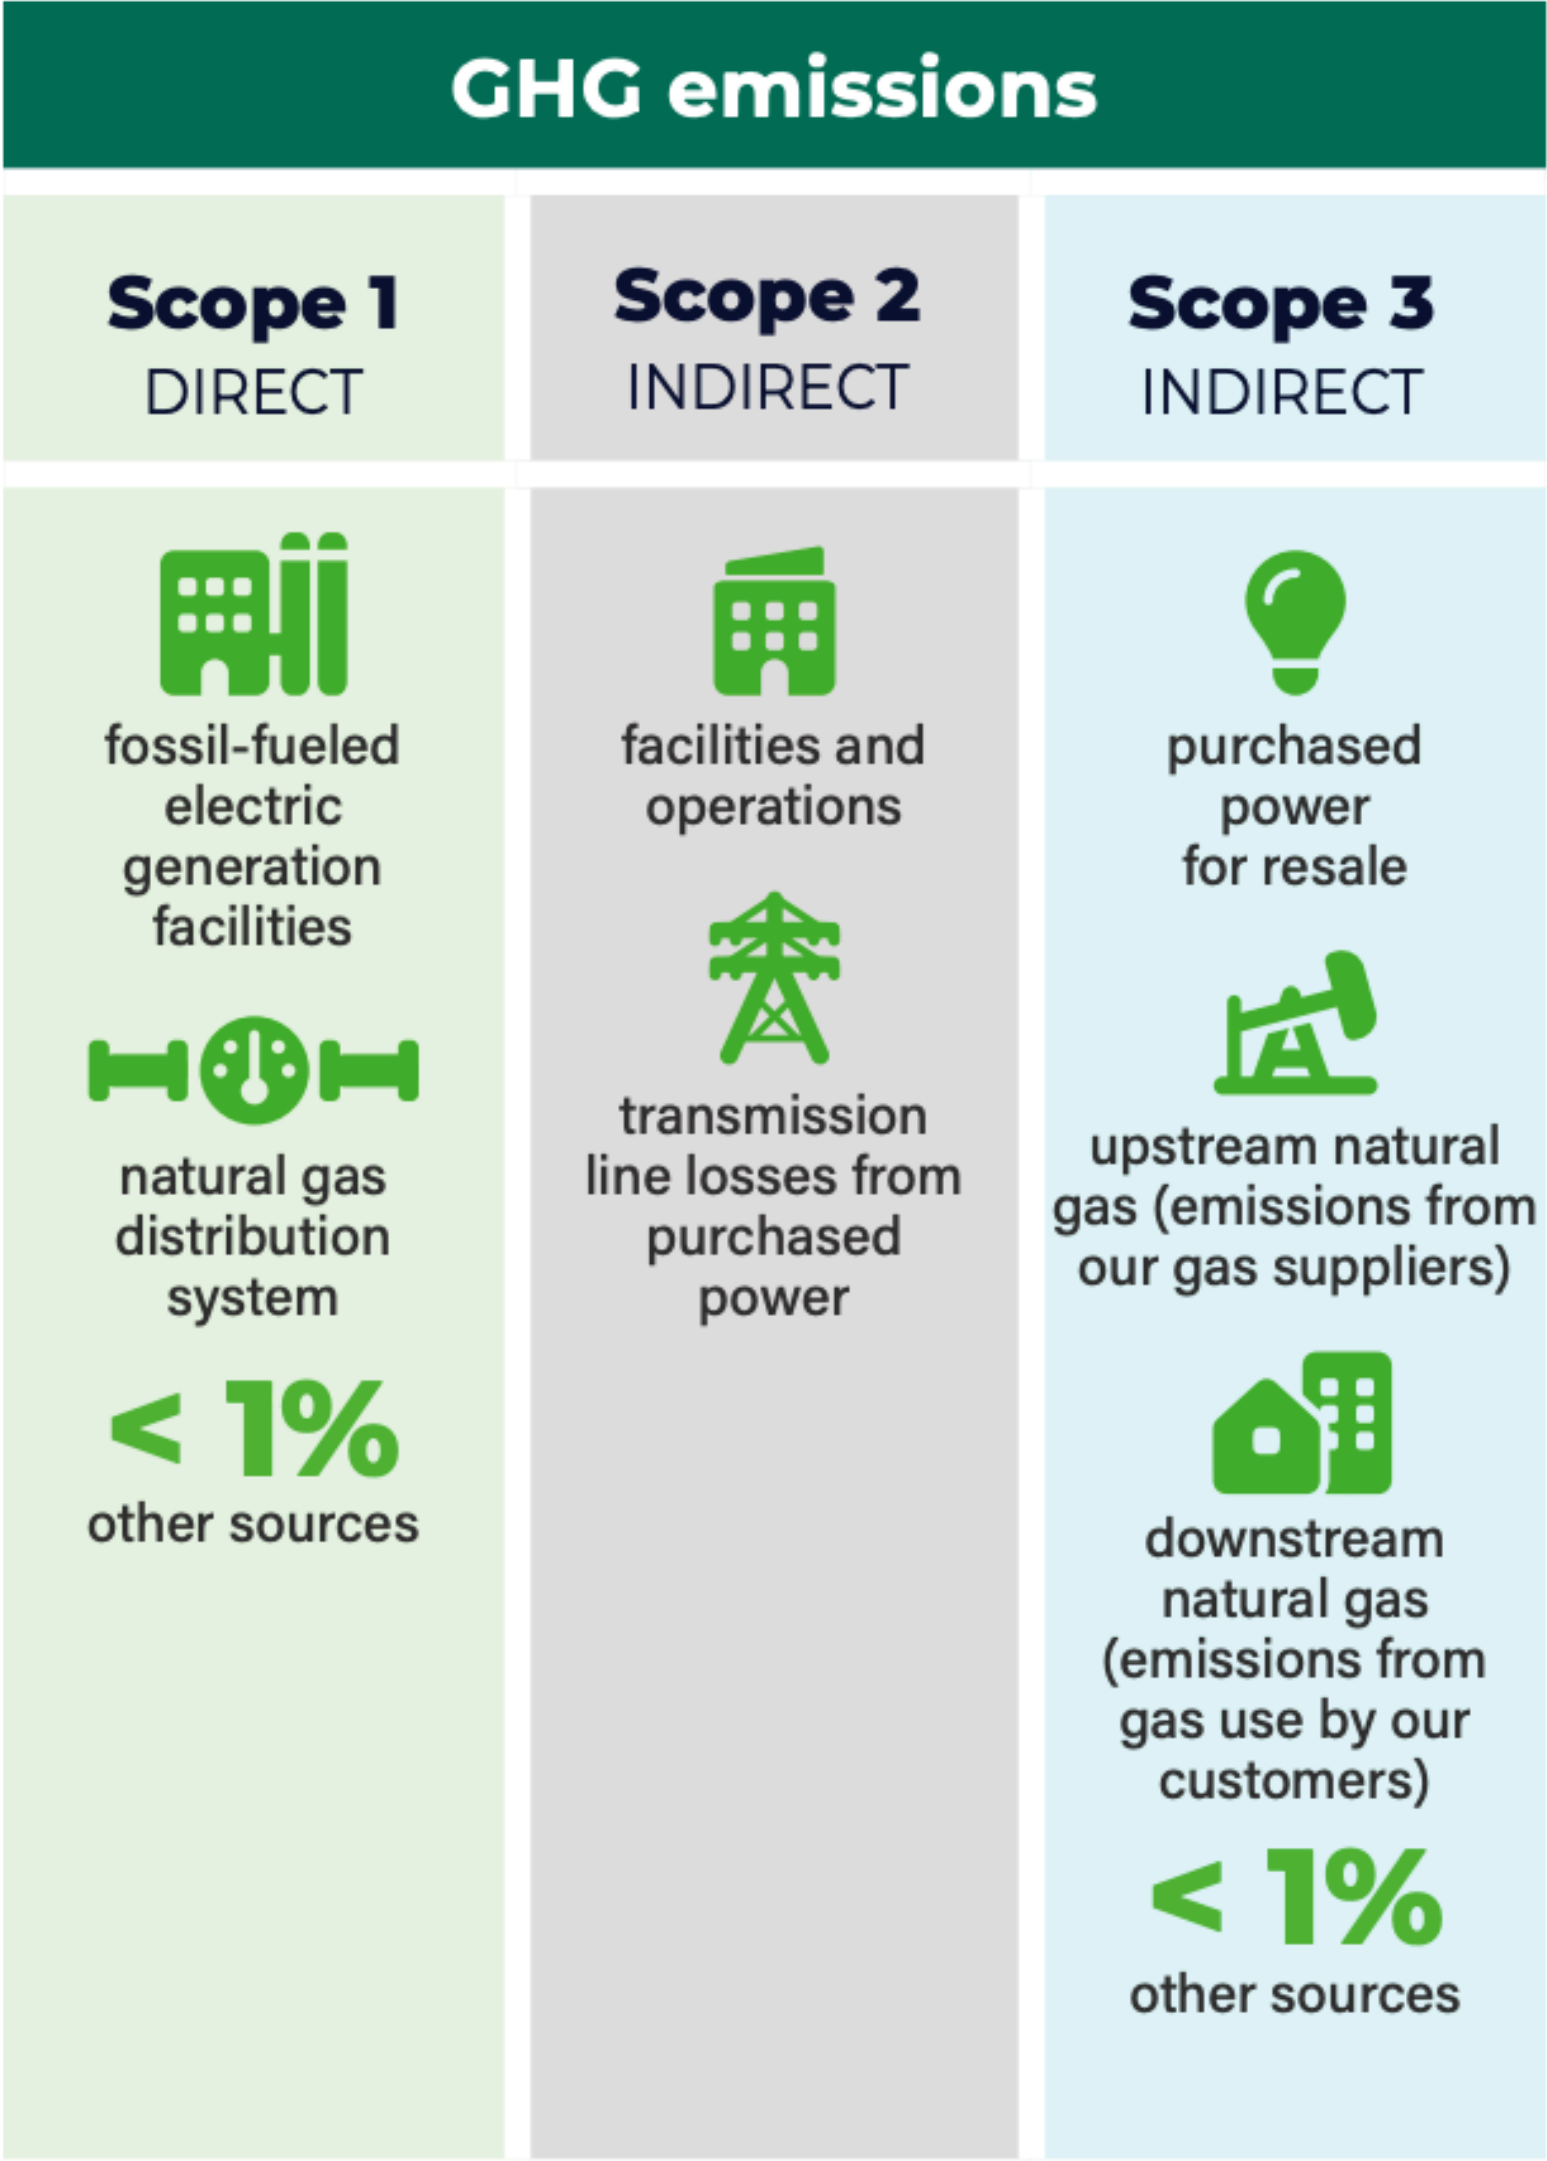

Natural Gas Distribution – Emissions Reductions Beyond Carbon

Building upon our long-standing commitment to providing affordable, sustainable energy, MGE has set a goal to achieve net-zero methane emissions from its natural gas distribution system by 2035.

- MGE is working to reduce overall emissions from its natural gas distribution system cost-effectively as quickly as possible.
- If MGE can accelerate plans to achieve net-zero methane emissions from its natural gas system through the evolution of new technologies, it will.

Natural gas continues to be a critical resource for meeting reliable, efficient and affordable energy needs. About half of U.S. households use natural gas for heating.

- In 2022, MGE completed an in-depth analysis and inventory of GHG emissions associated with the purchase and distribution of natural gas and other sources, such as indirect emissions from gas usage by our customers.
- MGE has replaced and upgraded all piping made of material considered leak-prone throughout its distribution system.
- MGE's leak inspection schedule already exceeds federal requirements.
