Item 1.01. Entry into a Material Definitive Agreement.

Madison Gas and Electric Company (MGE), a wholly-owned subsidiary of MGE Energy, Inc., entered into a Note Purchase Agreement dated July 16, 2018 (the Note Purchase Agreement), with the note purchasers named therein, in which it committed to issue \$60 million in principal amount of its 4.19% senior notes, Series A, due September 15, 2048; \$20 million in principal amount of its 4.24% senior notes, Series B, due July 15, 2053; and \$20 million in principal amount of its 4.34% senior notes, Series C, due July 15, 2058. The Series A Notes, the Series B Notes and the Series C Notes are referred to in this report as the Notes.

The Series B and Series C Notes were issued on July 16, 2018, and the Series A notes will be issued on September 7, 2018.

See Item 2.03 below for a description of the Notes and the related Note Purchase Agreement.

Item 2.03. Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.**Issuance of Notes**

On July 16, 2018, MGE issued \$20 million in principal amount of its 4.24% senior notes, Series B, due July 15, 2053, and \$20 million in principal amount of its 4.34% senior notes, Series C, due July 15, 2058. An additional \$60 million in principal amount of its 4.19% senior notes, Series A, due September 15, 2048, will be issued on September 7, 2018. The Series B and C Notes were, and the Series A Notes will be, issued pursuant to the Note Purchase Agreement.

The Notes are unsecured and are not issued under, or governed by, MGE's Indenture dated as of September 1, 1998, which governs MGE's Medium-Term Notes. MGE will use the net proceeds from the sale of the Notes to cover capital expenditures, to retire at maturity \$20 million in principal amount of its 5.59% senior notes due 2018, and other corporate obligations.

The Series B Notes carry an interest rate of 4.24% per annum; and the interest on the Series B Notes is payable semi-annually on January 15 and July 15 of each year, commencing on January 15, 2019. The Series C Notes carry an interest rate of 4.34% per annum; and the interest on the Series C Notes is payable semi-annually on January 15 and July 15 of each year, commencing on January 15, 2019. The Notes are redeemable at any time at MGE's option at a redemption price equal to 100% of the principal amount of the Notes to be redeemed, plus accrued interest to the redemption date and a make-whole premium (not less than zero) equal to the excess, if any, of the discounted present value of the remaining scheduled payments of principal and interest on the Notes to be redeemed over the principal amount of the Notes to be redeemed. Following a change in control event, MGE must offer to prepay the Notes at a price equal to 100% of the principal amount of the Notes, plus accrued interest to the date of prepayment, but without any make-whole premium. The prepayment offer expires if not accepted by a holder of Notes within a defined period. A change in control event is deemed to have occurred if MGE does not have an investment grade rating for its senior, unsecured, long-term indebtedness from at least two of Standard & Poor's Rating Services, Moody's Investors Service or any other nationally recognized statistical rating agency, within 90 days after an acquisition of beneficial ownership of 30% or more of the outstanding voting stock of MGE Energy, Inc. by one person, or two or more persons acting in concert. MGE Energy, Inc. is the parent company of MGE.

Events of default under the Note Purchase Agreement include failures to pay principal, make-whole premium or interest on the Notes; defaults in the performance of various covenants; cross-defaults to specified other indebtedness; failure to pay specified judgments; and certain bankruptcy-related events; subject to any applicable cure periods. The Note Purchase Agreement requires MGE to maintain a ratio of its consolidated indebtedness to consolidated total capitalization not to exceed a maximum of 65%. Both consolidated indebtedness and consolidated total capitalization are determined in accordance with generally accepted accounting principles, except that amounts included within MGE's indebtedness and capitalization from "variable interest entities" as a result of the application of FASB Interpretation No. 46, Consolidation of Variable Interest Entities – an Interpretation of ARB No. 51, as modified, are excluded.

The Note Purchase Agreement also restricts MGE from issuing "Priority Debt" in an amount exceeding 20% of its consolidated assets. MGE has agreed not to use the capacity to issue Priority Debt to grant a lien to secure its principal credit facility indebtedness without simultaneously providing that the Notes be equally and ratably secured with the principal credit facility indebtedness so long as such indebtedness is so secured. Priority Debt is defined as any indebtedness of MGE secured by liens other than specified liens permitted by the Note Purchase Agreement and certain unsecured indebtedness of certain subsidiaries. Principal credit facility indebtedness means the indebtedness under MGE's Credit Agreements dated as of June 1, 2015, with the lenders party thereto and JPMorgan Chase Bank, N.A., as Administrative Agent, and with the lenders party thereto and US Bank National Association, as Administrative Agent, or, in each case, any replacement credit agreement, including amendments and restatements.

A copy of the Note Purchase Agreement, which includes the form of the Notes, is filed as Exhibit 4.1 to this report. Reference is made to the Note Purchase Agreement for the definitive provisions governing the Notes.
