

UNITED STATES  
**SECURITIES AND EXCHANGE  
 COMMISSION**  
 Washington, D.C. 20549

**FORM 8-K**

**CURRENT REPORT**

Pursuant to Section 13 or 15(d) of The Securities Exchange Act of  
 1934

**February 27, 2026**

Date of report (date of earliest event reported)

Commission File No.	Name of Registrant, State of Incorporation, Address of Principal Executive Offices, and Telephone No.	IRS Employer Identification No.
000-49965	<b>MGE Energy, Inc.</b> <i>(a Wisconsin Corporation)</i> 133 South Blair Street Madison, Wisconsin 53788 (608) 252-7000   mgeenergy.com	39-2040501
000-1125	<b>Madison Gas and Electric Company</b> <i>(a Wisconsin Corporation)</i> 133 South Blair Street Madison, Wisconsin 53788 (608) 252-7000   mge.com	39-0444025

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading symbol(s)	Name of each exchange on which registered
Common Stock, \$1 Par Value Per Share	MGEE	The NASDAQ Stock Market

Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).

**MGE Energy, Inc.**

**Madison Gas and Electric Company**

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

**MGE Energy, Inc.**

**Madison Gas and Electric Company**

**Item 7.01. Regulation FD Disclosure.**

On February 27, 2026, MGE Energy, Inc. posted a financial presentation on its Investor Relations website. A copy of the presentation is attached as Exhibit 99.1. This Form 8-K and the attached exhibits are furnished to, but not filed with, the Securities and Exchange Commission.

**Item 9.01. Financial Statements and Exhibits.**

# Cautionary Note – Forward-Looking Information

Certain matters discussed in this presentation include "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements that are not statements of historical facts are, or may be deemed to be, forward-looking statements. Such forward-looking statements are based on historical performance and current expectations, estimates, forecasts and projections about our future financial results, goals, plans, commitments, strategies and objectives, particularly related to future load growth, revenues, expenses, capital expenditures and rate recovery, financial resources, regulatory matters, and the scope and expense associated with future environmental regulation. Such statements involve inherent risks, assumptions and uncertainties, known or unknown, including internal or external factors that could delay, divert or change any of them, that are difficult to predict, may be beyond our control and could cause our future financial results, goals, plans and objectives to differ materially from those expressed in, or implied by, the statements. Words such as "believe," "expect," "anticipate," "estimate," "could," "should," "intend," "will," "commit," "target," "plan" and other similar words, and words relating to goals, targets and projections, generally identify forward-looking statements. Both MGE Energy, Inc. ("MGE Energy" or the "Company"), and Madison Gas and Electric Company ("MGE") caution investors that these forward-looking statements are subject to known and unknown risks and uncertainties that may cause actual results to differ materially from those projected, expressed or implied. Those risks and uncertainties include those described in MGE Energy's Annual Report on Form 10-K for the year ended December 31, 2025 (the "2025 Form 10-K"), under the heading "Risk Factors" and elsewhere, and in other reports filed with the Securities and Exchange Commission. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this presentation. MGE Energy and MGE undertake no obligation to publicly update or revise any forward-looking statement to reflect events or circumstances after the date of this presentation, whether as a result of new information, future events, changed circumstances or otherwise, except as required by law.

# Company Mission and Values

MGE Energy is an investor-owned public utility holding company headquartered in the state capital of Madison, Wis. MGE Energy is the parent company of MGE, your community energy company. With roots in the community dating back more than 150 years, the utility provides affordable natural gas and electric service in south-central and western Wisconsin.

## Safety

Safety is a core value at MGE. The safety of our employees, customers and communities is our top priority.

## Reliability

We invest in our people and in our systems to help ensure top-ranked energy reliability that helps to maintain the economic health and vitality of the communities we serve.

## Sustainability

With a commitment to transparency, accountability and continuous improvement, we take a holistic and proactive approach to sustainable practices company-wide.

## Equity

We are committed to equity and inclusion in our service to our customers, in our workplace and in our broader community, and we value diverse perspectives, ideas, cultures and backgrounds.

## Engagement

We are dedicated to engagement, partnership and collaboration to best serve our customers and the broader community.

# Company Highlights

## Diversified Customer Base and Revenue Profile

### Resilient Revenue Stream and Customer Base

- Electric service to ~170,000 customers located in the city of Madison and adjacent areas
  - 87% residential; 13% commercial or industrial
  - Accounts for ~72% of regulated revenue
- Natural gas to ~180,000 customers
  - 90% residential; 10% commercial or industrial
  - Accounts for ~28% of regulated revenue

## Strong Financial Profile

### Stable Earnings Growth with Strong Balance Sheet

- Predominantly regulated earnings
- Strong liquidity and cash position
- Conservative financial policies that are designed to achieve strong credit quality
- MGE's Credit Ratings<sup>2</sup>
  - S&P: AA- (Stable)
  - Moody's: Aa2 Secured (Stable)  
A1 Unsecured (Stable)

## Regulated, Highly Visible Growth

### Historical 5-Year EPS CAGR of 7.4%, Regulated PPE<sup>1</sup> CAGR of 7.8%

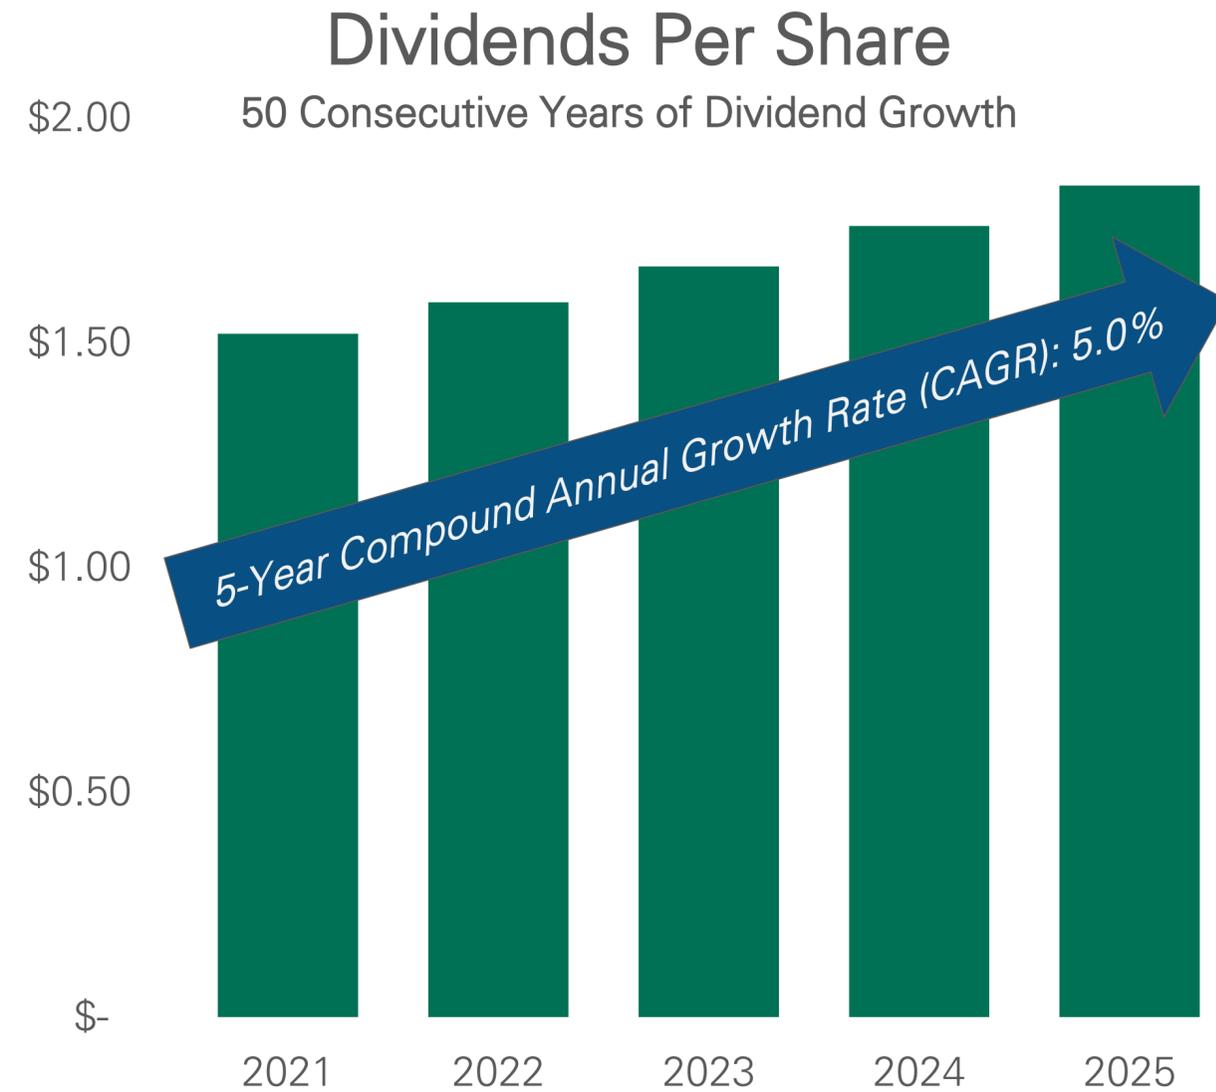

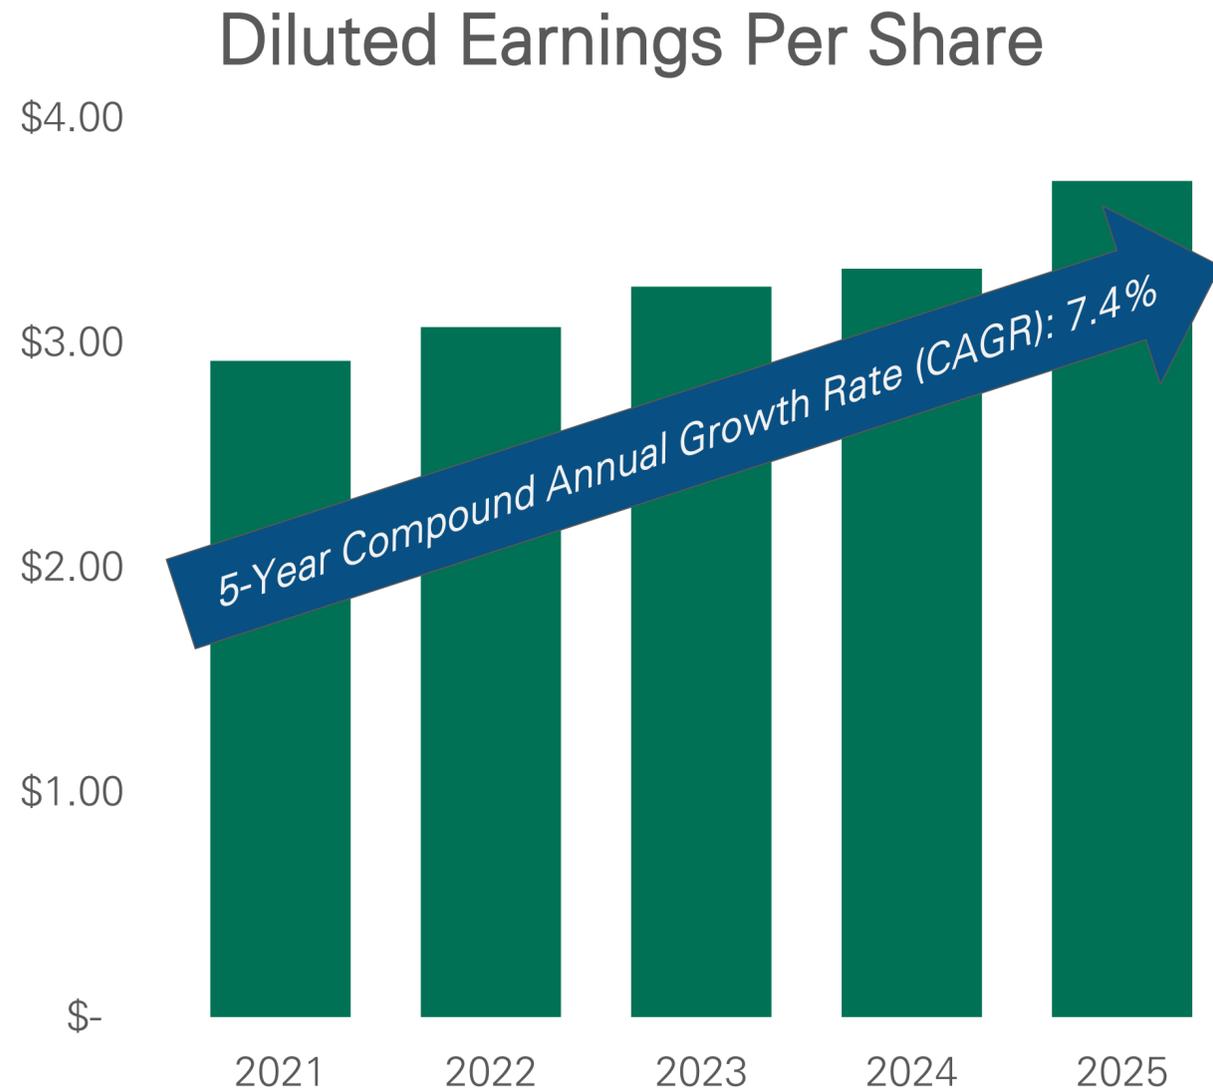

- Forecasted capital investment of ~\$1.9B from 2026 through 2030
- 50 consecutive years of dividend increases
- Premium service territory with constructive regulation
- Forward-looking test years

## Sustainable Investment

### Seeking Net-Zero Carbon Electricity by 2050

- 750 MW of renewable generation and storage additions from 2015 through 2030
- Growing our use of renewable generation and storage
- Investing in innovative solutions such as long-duration energy storage
- Electrifying transportation
- Working toward goal of net-zero methane emissions from natural gas distribution system by 2035

# Earnings and Dividends Growth

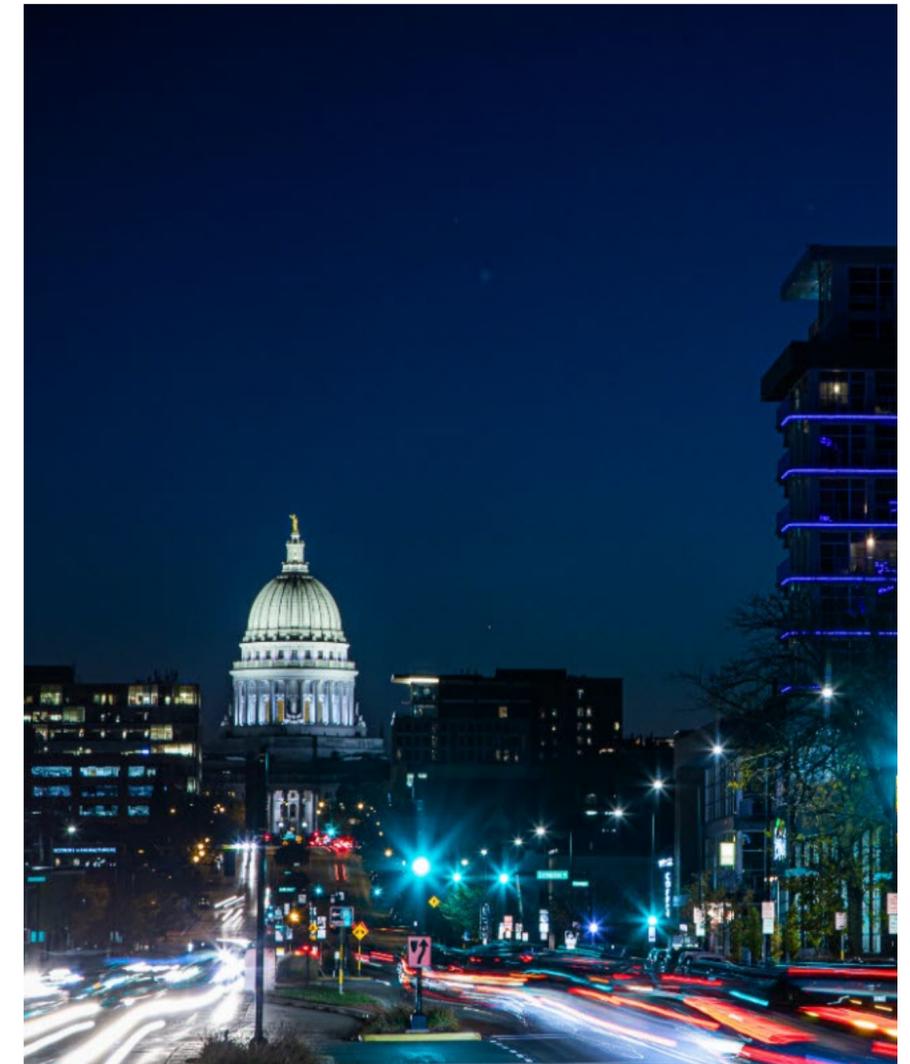

# Service Territory Highlights

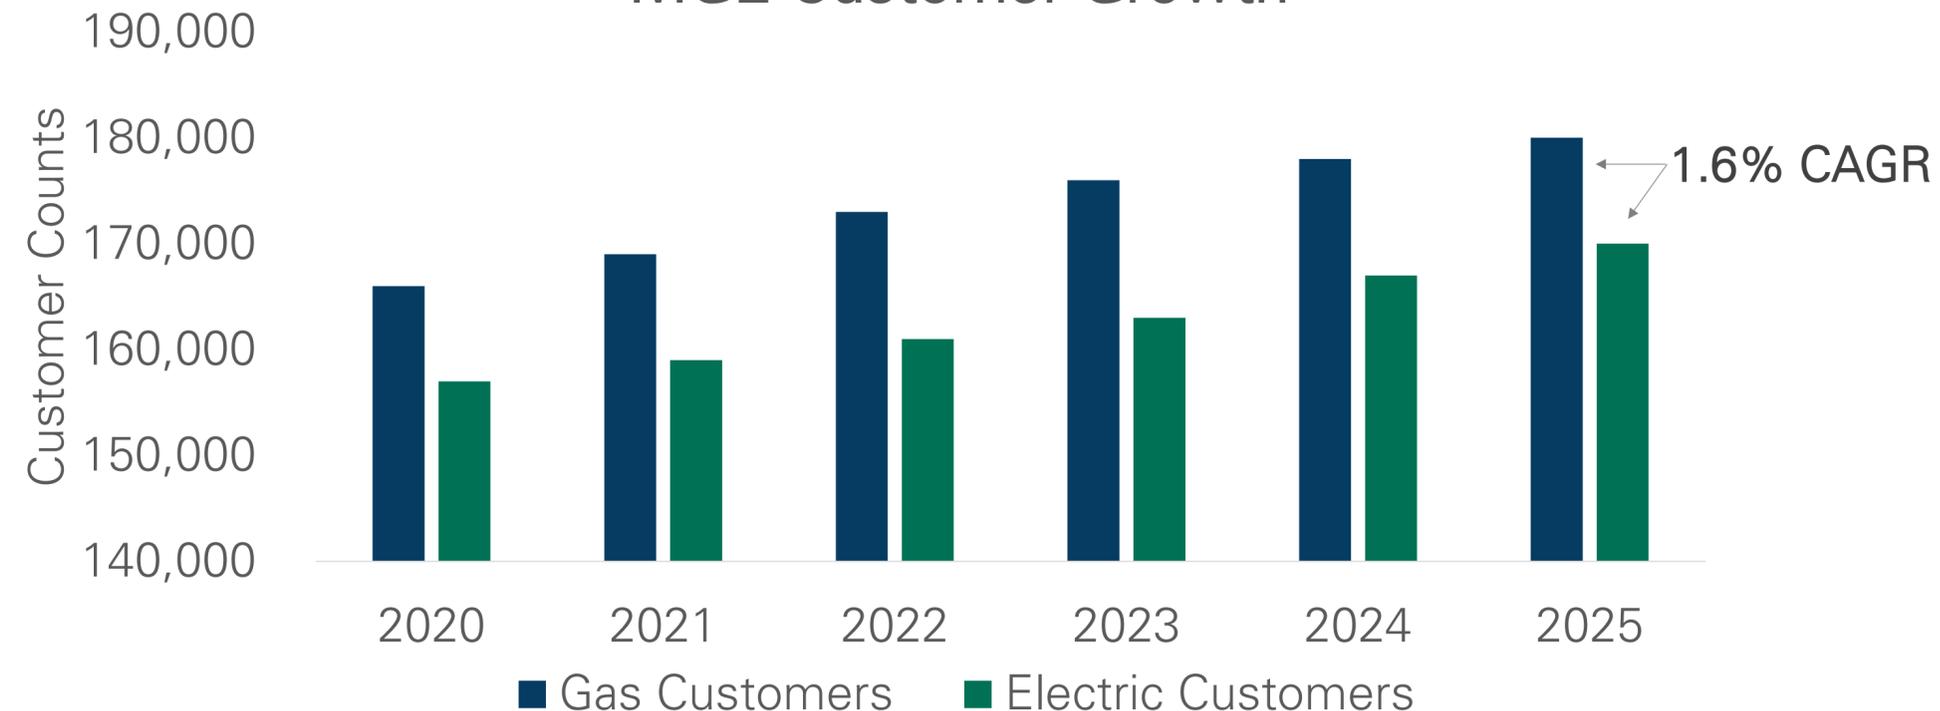

MGE's service territory is a growing and diverse community of urban, suburban and rural communities. The Madison area and Dane County lead the state of Wisconsin in population growth.

- Seat of State government
- Home to the flagship University of Wisconsin-Madison
- Robust biotech industry and entrepreneurial community
- 2.7% unemployment, which is below U.S. average
- Madison ranks 6th best place to live [Source: U.S. News and World Report (2024)]

*All contribute to the economic resiliency of MGE's service territory.*

### MGE Customer Growth

# Potential to Attract and Serve New Large-Load Customers

MGE continues to evaluate the impacts of serving potential new large-load customers, including data-intensive and technology-driven operations seeking reliable and scalable electric service.

- **Favorable Location**

Access to robust regional transmission and diversified portfolio of electric generation infrastructure, which supports flexibility of load growth

- **Customer Engagement**

Engagement with prospective customers in the planning process to evaluate load characteristics, interconnection requirements, and system impacts

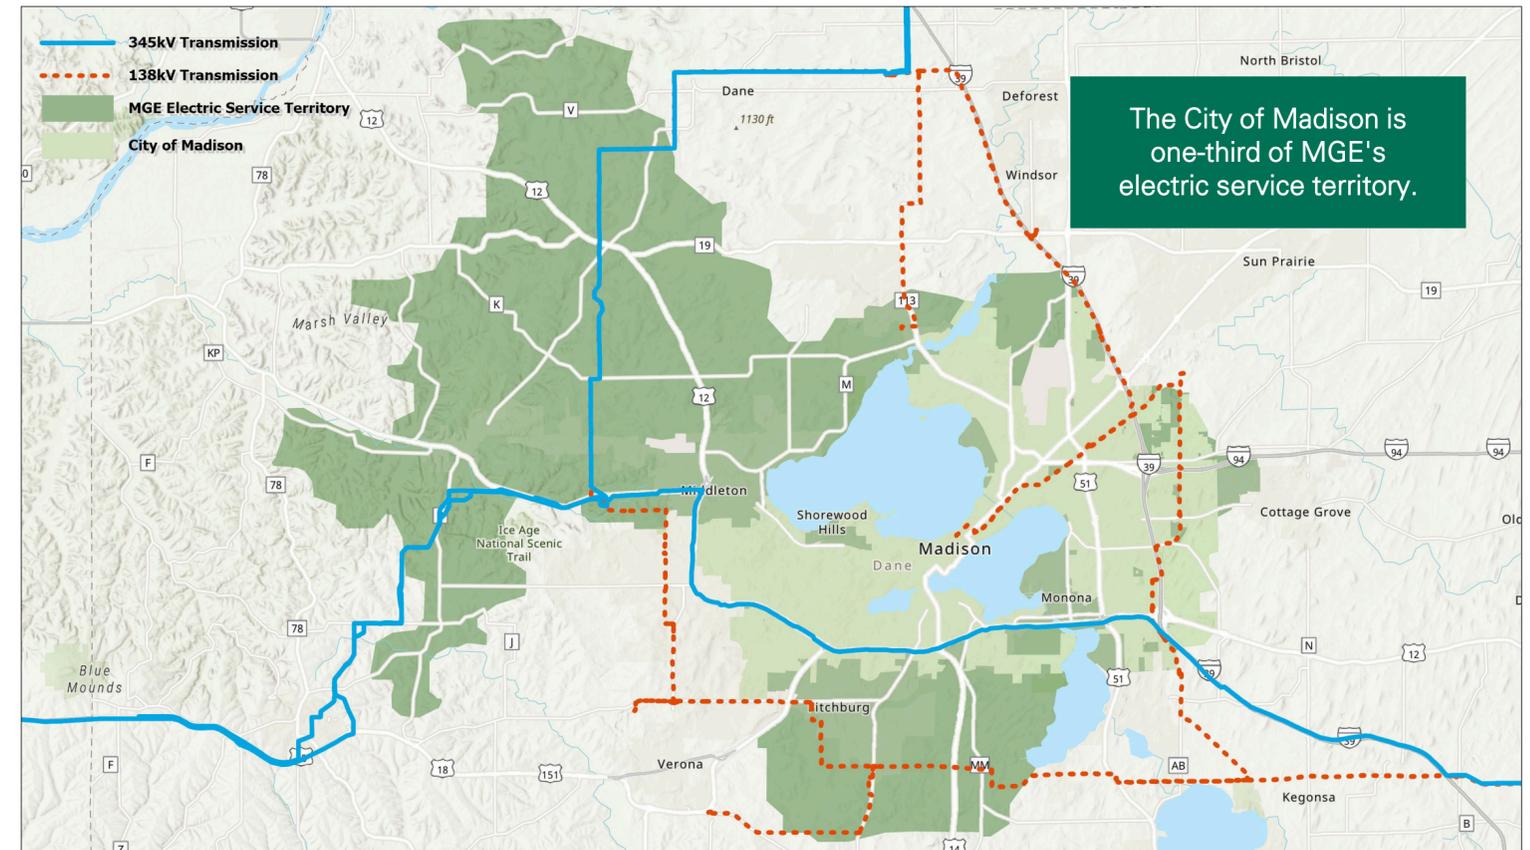

- **Commitment to Stakeholder Benefits**

Regulatory proceedings are underway in Wisconsin to establish utility rate structures and mechanisms that reflect cost of serving large-load customers, preventing cost-shifts to other customers.

- **Local Evaluation of Potential New Data Centers Underway**

The City of Madison has enacted a temporary moratorium on the development of new large-scale data centers to evaluate their impact on local infrastructure and resources.

MGE’s service territory benefits from its favorable location with access to robust regional transmission and a diversified portfolio of electric generation infrastructure, which supports flexibility of load growth.

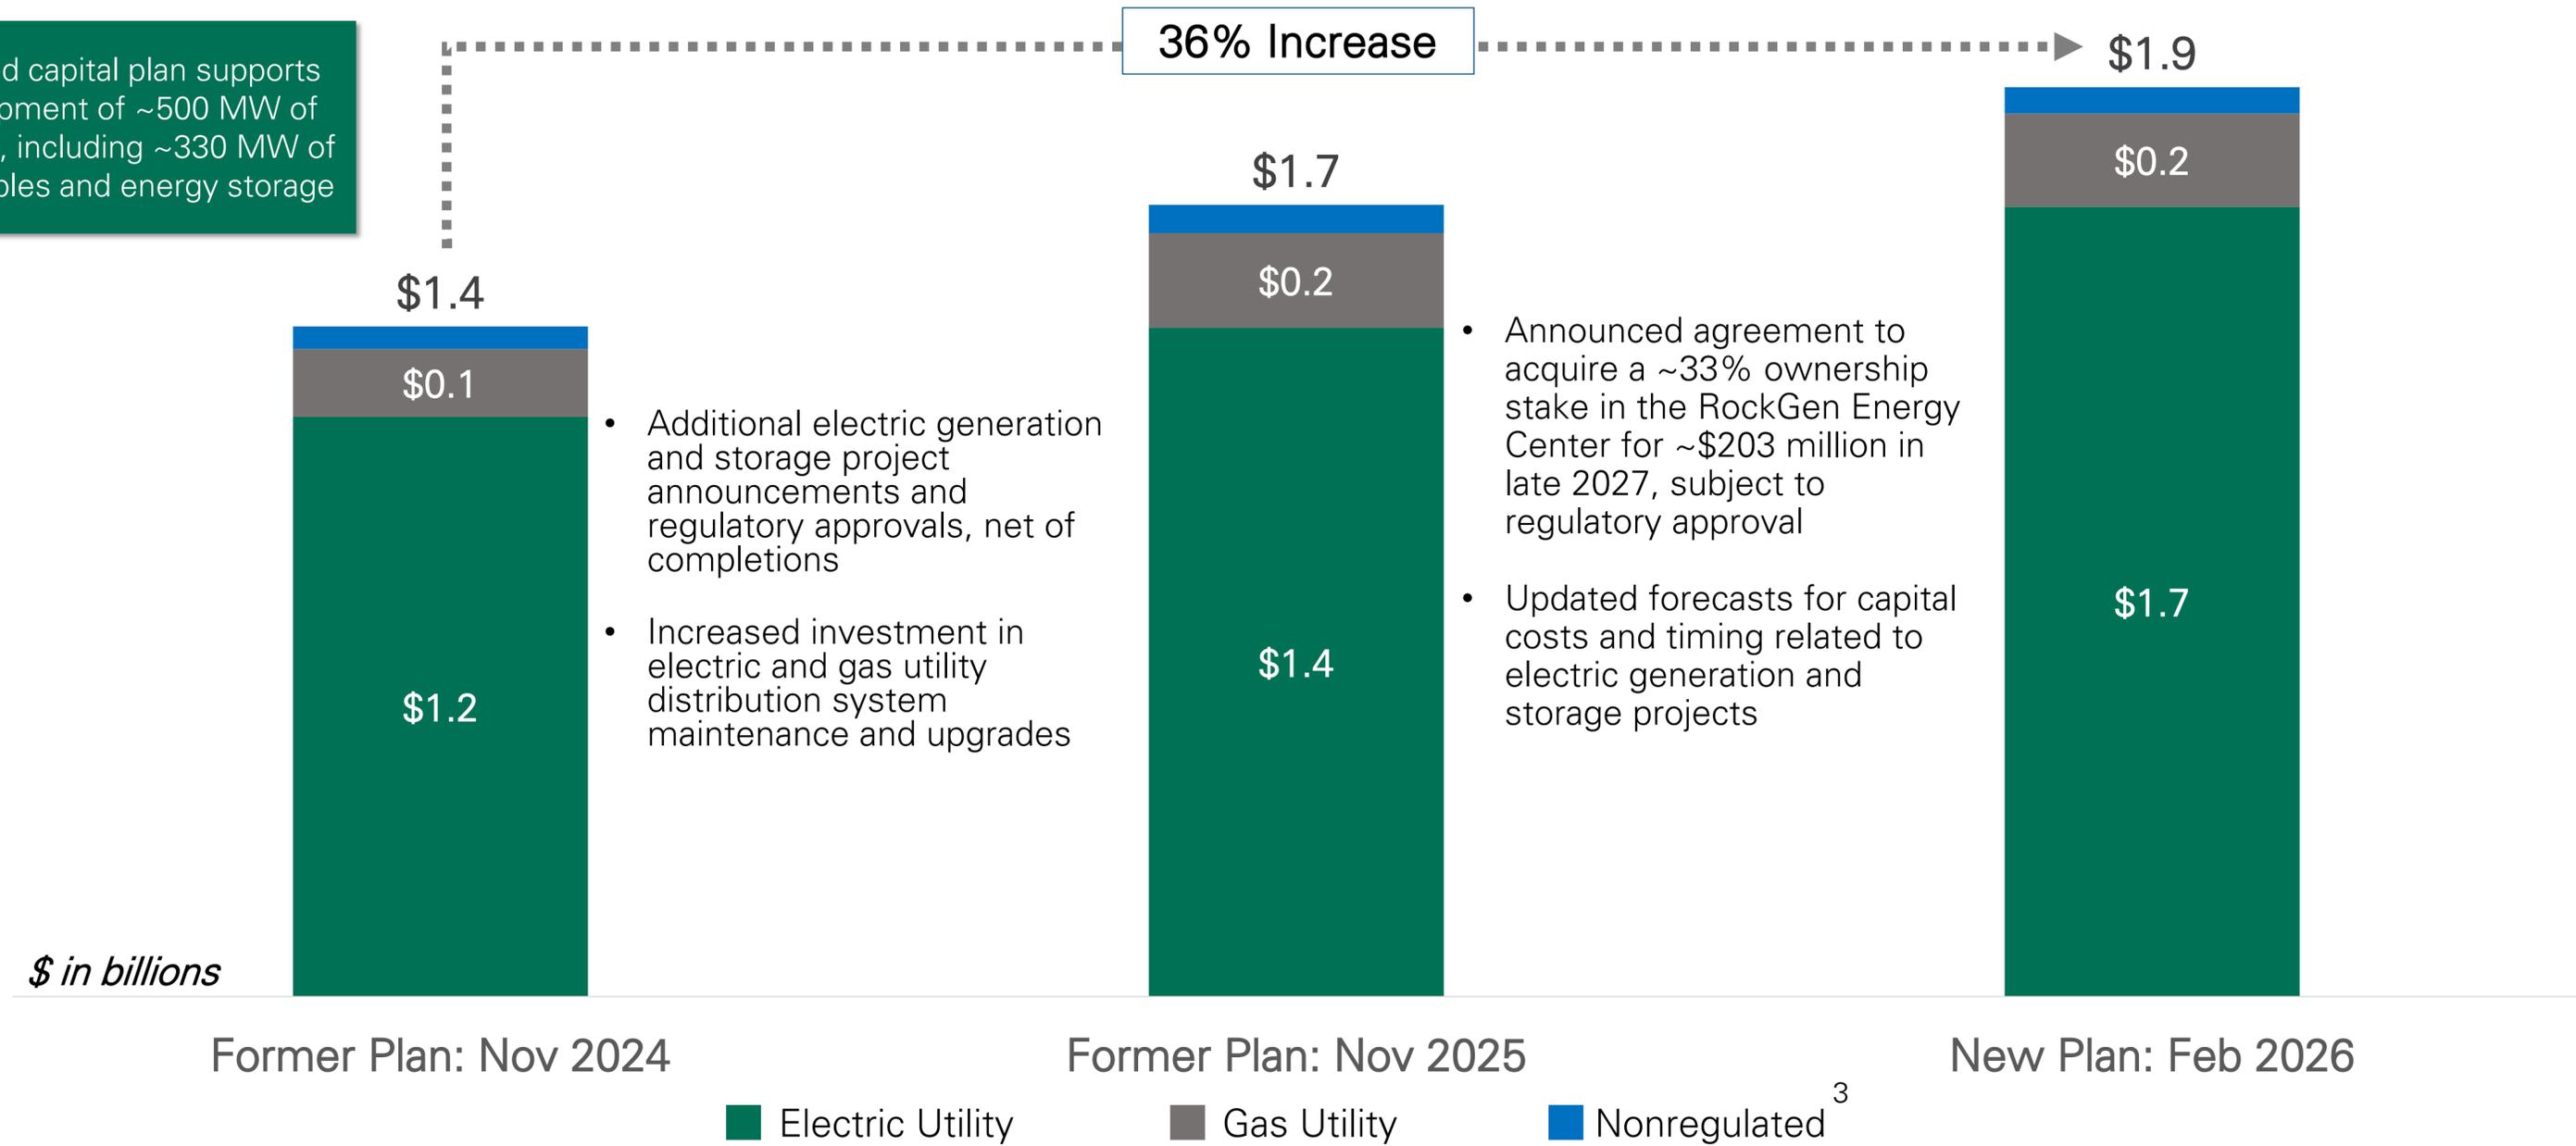

## Roadmap Toward Securing Large Loads

# Updated Five-Year Capital Plan<sup>1,2</sup>

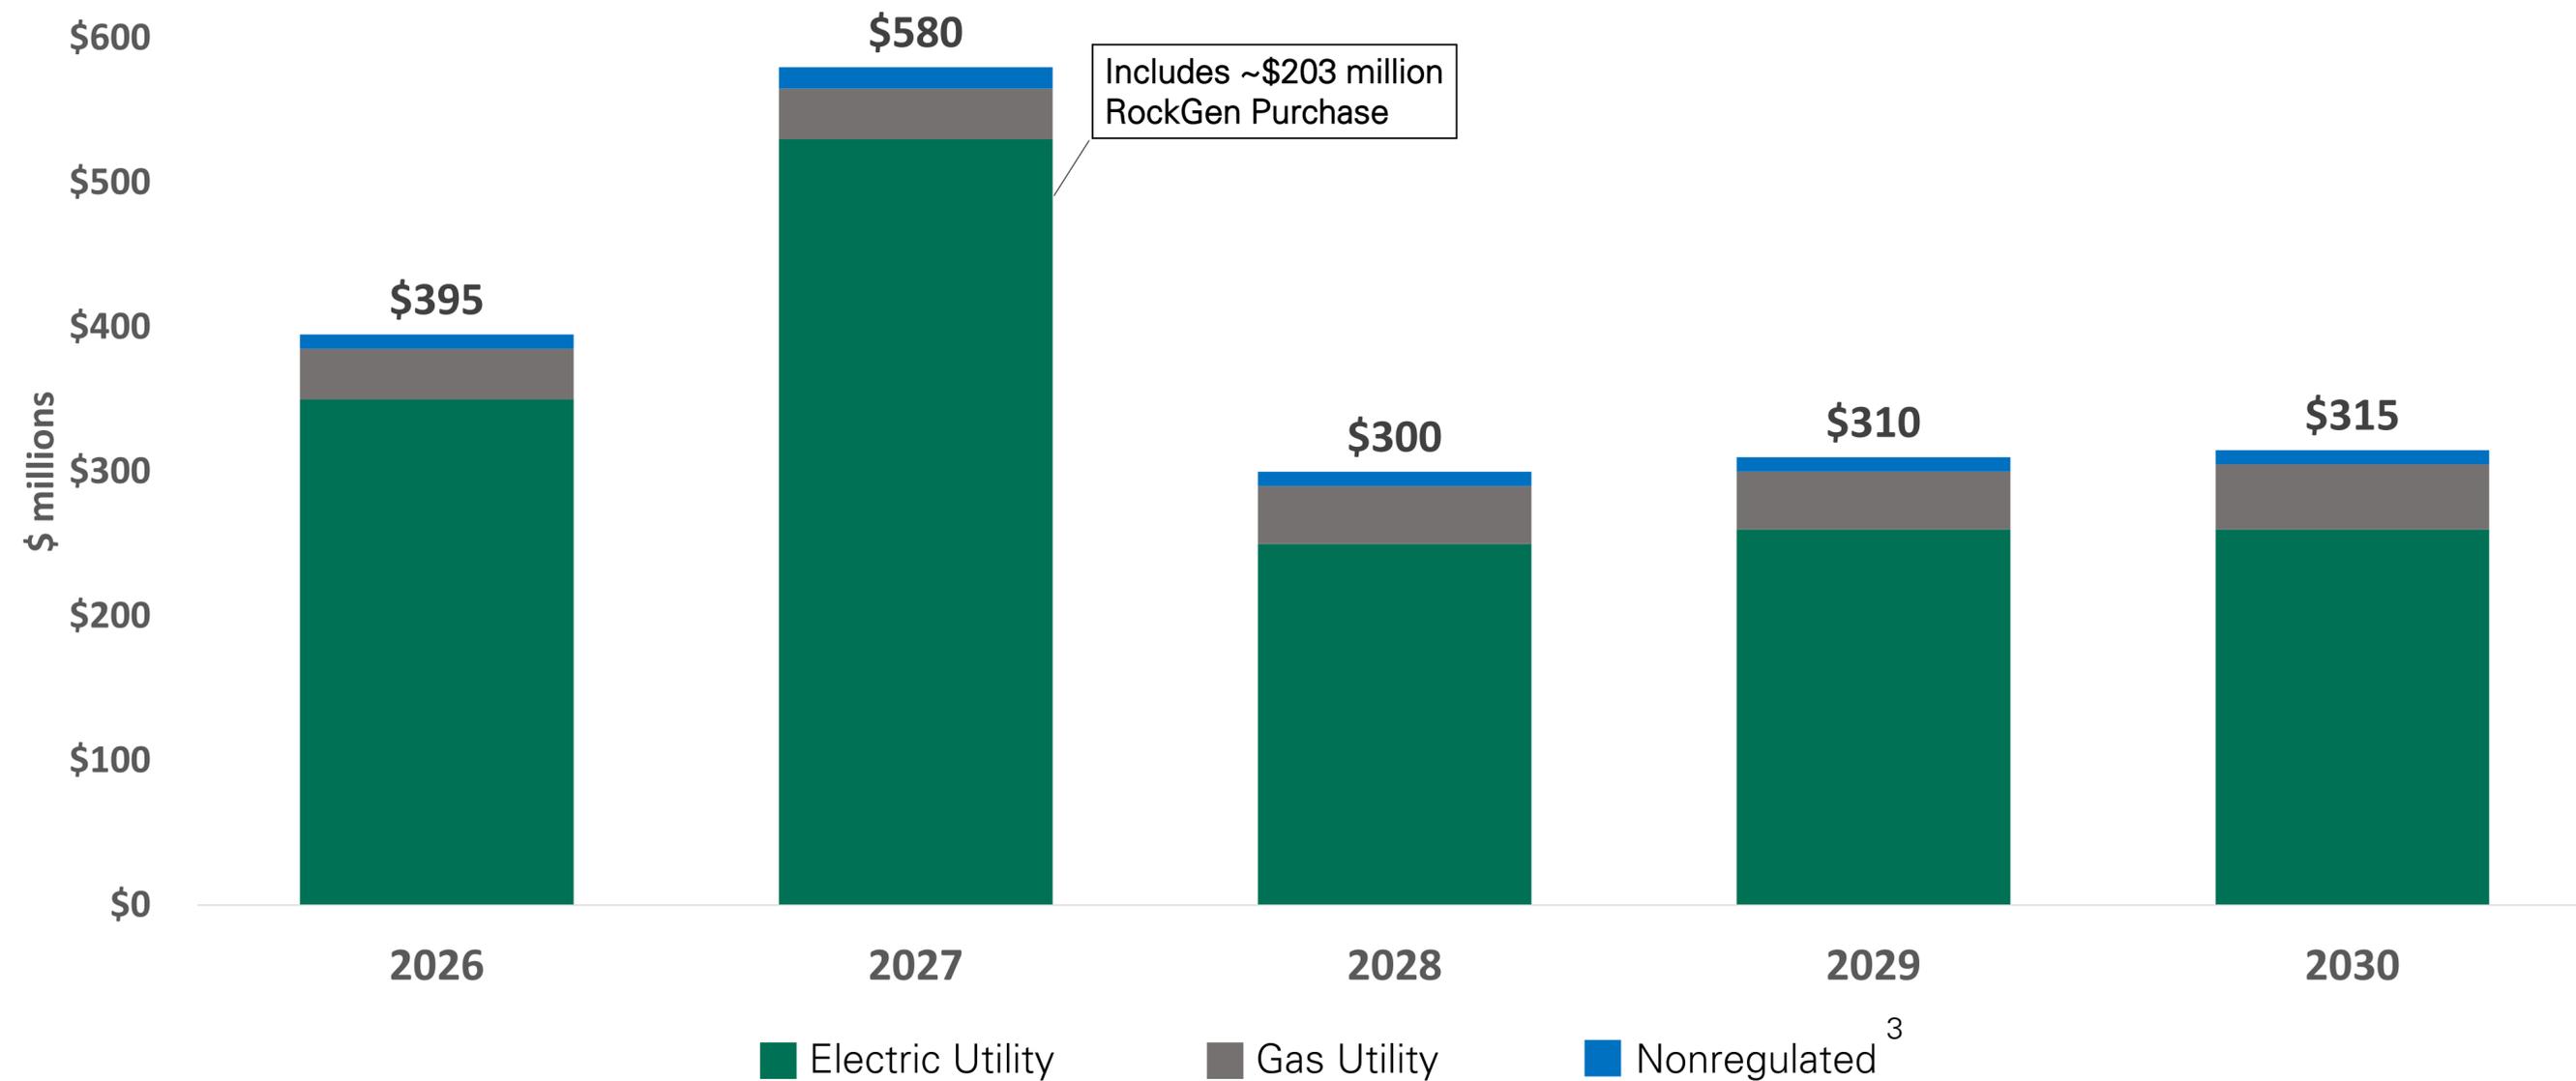

(2026 – 2030) Capital Plan | \$0.5 billion (+36%) Increase Since Late 2024

Updated capital plan supports development of ~500 MW of capacity, including ~330 MW of renewables and energy storage

# Capital Program Focused on Reliability and Sustainability

Projected Capital Expenditures Total \$1.9 billion<sup>1,2</sup>

# Acquisition of Joint Interest in RockGen Energy Center

MGE to acquire 168 MW (33.4%) of the RockGen natural gas-fired plant from Dairyland Power Cooperative

- \$203 million transaction expected to close in late 2027, subject to PSCW approval
- Cost-effective natural gas plants add needed reliability and balance to the electric system while MGE continues to transition away from coal-fired generation and add more renewable capacity to MGE's generation mix

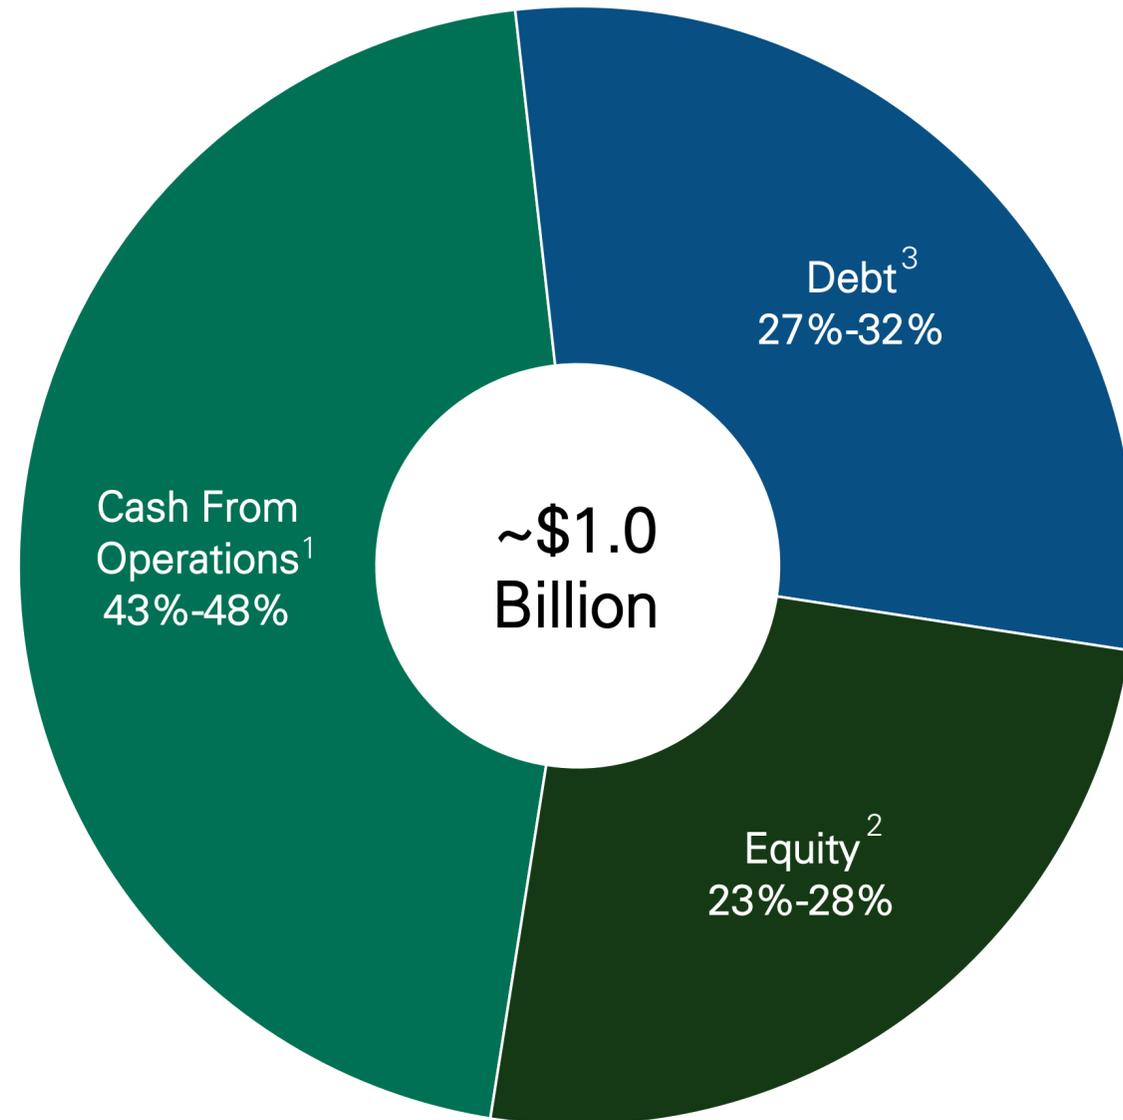

## RockGen Energy Center

- 503-MW natural gas combustion turbine
- Located near Cambridge, Wisconsin
- In service since 2001

# Balanced Funding Approach for Capital Investment Plan

Backed by solid balance sheet and strong cash flows

Sources of Funding  
2026-2027

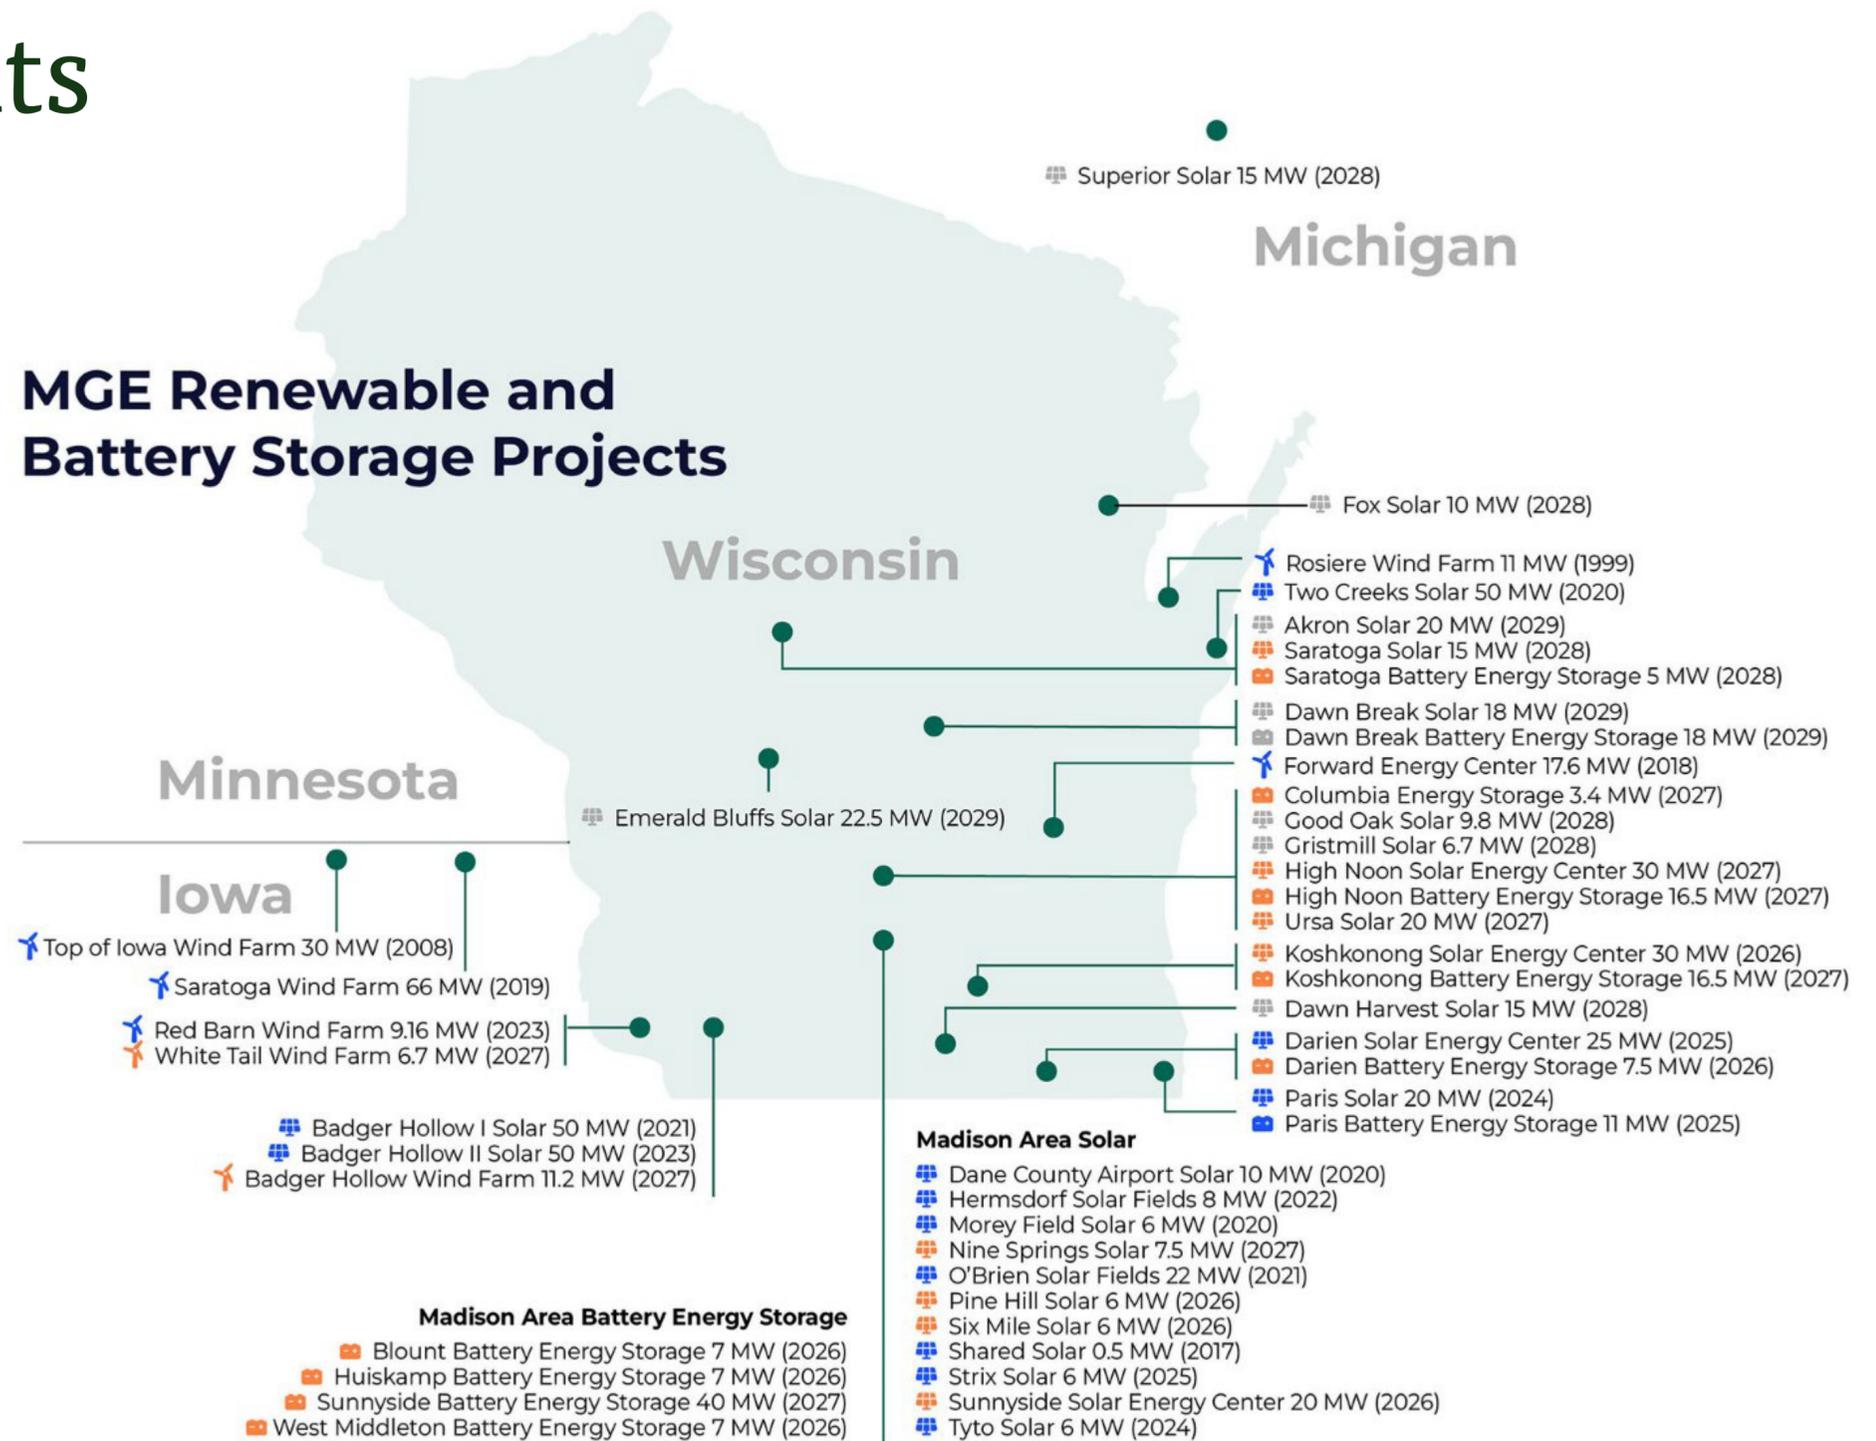

## Financing Plan Supports

- Financing capital investments with internally generated cash flow and a balance of new debt and common equity
- External financing mix to support MGE's authorized equity layer
- Committed to maintaining top-tier credit ratings within utility industry
- Recently implemented \$100 million ATM program

# Constructive Regulatory Environment

Both S&P and Moody's view the Wisconsin regulatory environment as highly credit supportive with timely operating and capital cost recovery and view MGE's relationship with the Public Service Commission of Wisconsin (PSCW) as constructive.

## Supportive regulatory framework including:

- Forward-looking test years
- Historical approval of various expense deferrals
- Fuel Rules (2% bandwidth) and Gas Cost Recovery Mechanism
- Preapproval from regulator for major construction projects
- Current return on 50% of CWIP or 100% AFUDC on major construction projects
- Escrow treatment received for transmission, Elm Road Generating Station, pension and OPEB, and bad debt expense
- Deferral treatment for changes in legislation impacting tax credits

# PSCW Regulators

WISCONSIN COMMISSIONERS	PARTY	TERM BEGAN	TERM ENDS
Summer Strand (Chair)	D	Mar 2023	Mar 2029
Kristy Nieto*	D	Feb 2024	Mar 2031
Marcus Hawkins*	D	Apr 2024	Mar 2027

\* Pending confirmation

- Recent appointments of PSCW Commissioners and confirmation of Chair
- Constructive rate outcomes and continued support of construction projects
- PSCW Commissioners remain focused on stability and prudent management of the regulatory compact

## Public Service Commission of Wisconsin:

- Gubernatorial appointment, Senate confirmation
- Chair: Gubernatorial appointment
- 6-year staggered terms

## Governor Tony Evers (D)

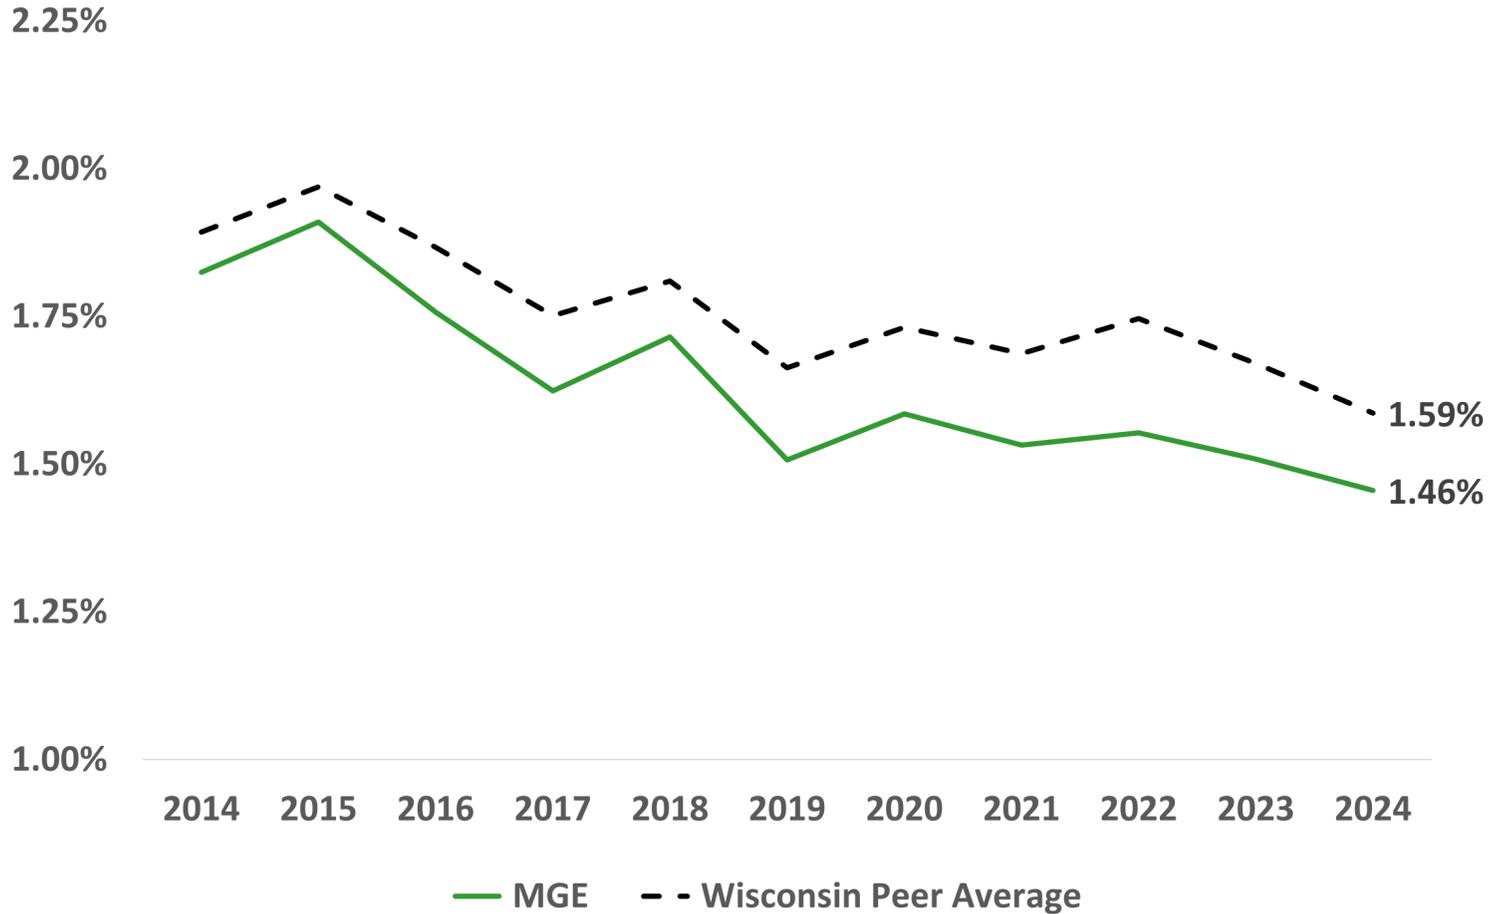

- Next gubernatorial election in 2026

# 2026/2027 Rate Case Outcomes

TERMS (\$000s where applicable)	APPROVED	
	2026 TY	2027 TY
Average Electric Rate Base	\$1,346,269	\$1,537,938
Average Gas Rate Base	\$375,594	\$393,558
Average Common Stock Equity	\$1,115,375	\$1,180,204
Regulatory Equity Layer	56.09%	56.05%
Authorized ROE <sup>1</sup>	9.80%	9.80%
Increase in Base Rates	0.15% Elec 2.77% Gas	3.63% <sup>2</sup> Elec 2.04% Gas

# Customer Affordability

Average residential electric customer bill as percentage of Wisconsin median household income<sup>1,2</sup>

MGE works hard to keep costs at an affordable level for all customers. An MGE residential electric customer bill as a percentage of customer wallet at 1.46% is below the Wisconsin utility peer average of 1.59%.

MGE's affordability as a percentage of customer wallet has improved 20% since 2014.

# Strong Credit Ratings<sup>1</sup>

# Transmission Investment Outlook

## ATC 2026-2030 Projected Capital Expenditures Total \$6.9 billion

MGE Energy anticipates material transmission investment opportunities later this decade through ATC.

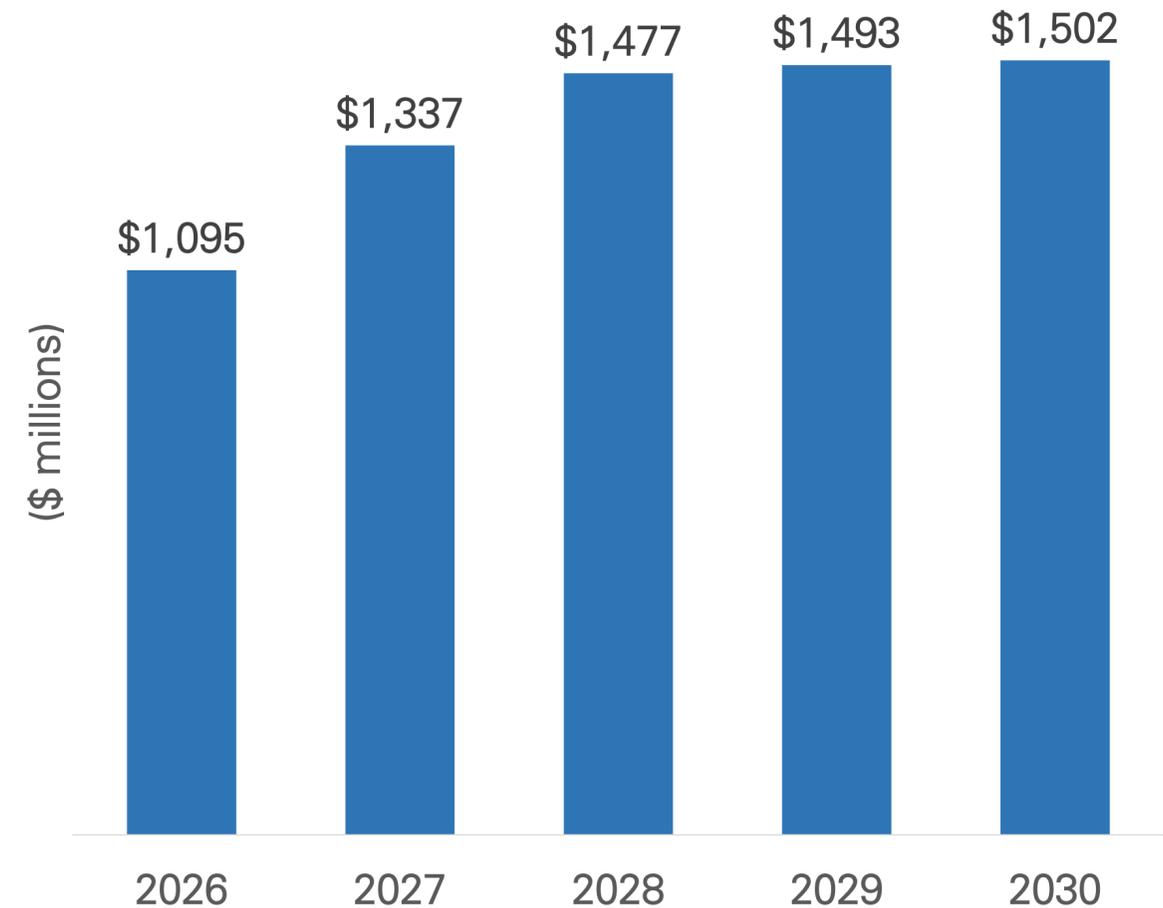

- MGE Energy holds 3.6% equity ownership interest in ATC<sup>1</sup>.

ATC 2025 10-year assessment projects \$14.2 billion of capital investment<sup>2</sup>

- Plan primarily driven by investments in asset renewal, MISO Long Range Transmission Plan (LRTP), distribution and generation interconnection, and transmission network upgrades.
- LRTP represents \$3.4 billion investment for ATC across the 10-year plan, including ~\$1.2 billion related to Tranche 1 Grid Forward project through 2030.

ATC Regulatory & Financial Parameters	2026
Projected Rate Base <sup>3</sup> (13-month avg)	~\$6.1 billion
Regulatory Equity Layer	50.00%
Authorized ROE	10.48%
Formula Rates with Annual True-Up	
80% Dividend Payout	

ATC Projected Capital Expenditures

# Ongoing Transition Toward Cleaner Energy

## Climate Transition and Our Business

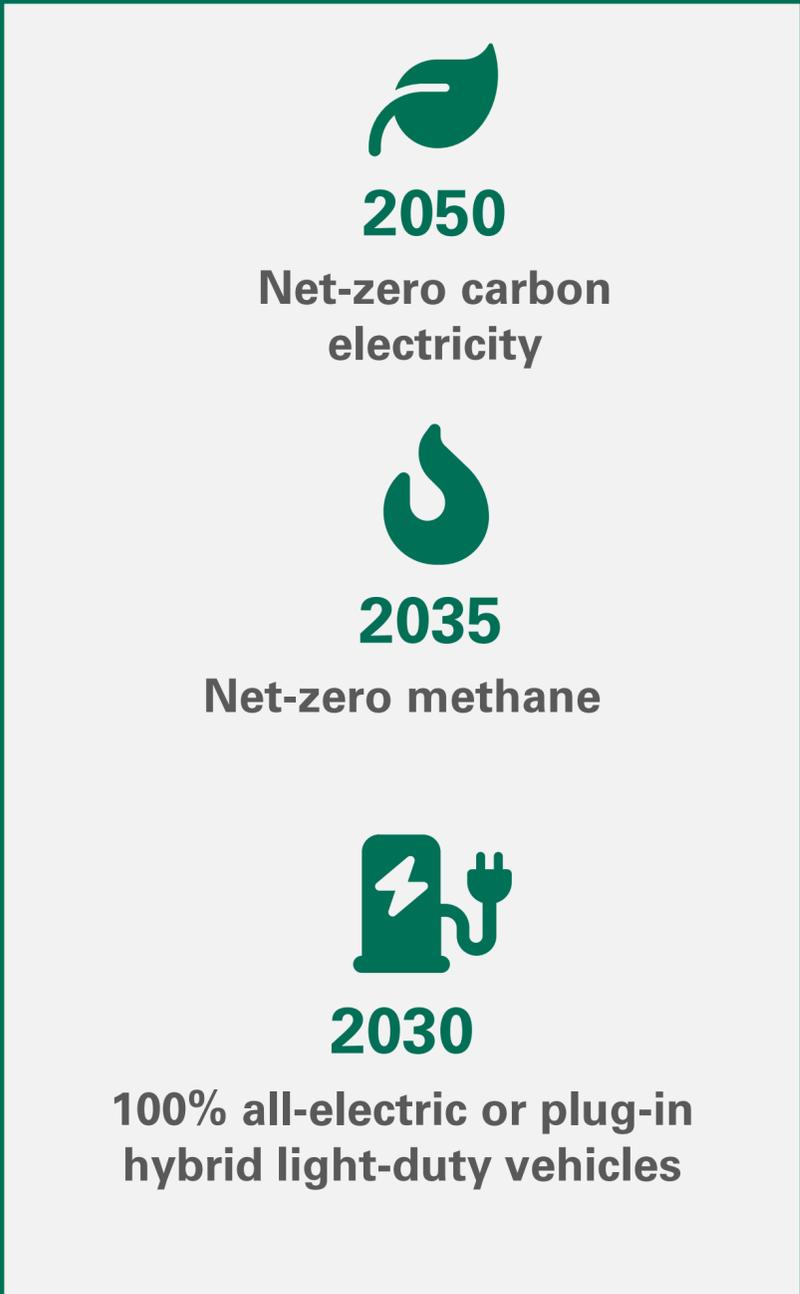

MGE Energy is investing in renewable generation and innovative energy solutions to advance portfolio sustainability while improving grid resilience and maintaining energy affordability. The company continues to work toward its sustainability goals cost-effectively.

## Strategies for Deep Decarbonization

- Grow MGE's use of renewable energy
- Further engage customers in energy efficiency through optional programs (i.e., MGE Connect, Charge Ahead)
- Electrify transportation and other end uses

## Ongoing Transition Away from Coal

- Enhancing fuel flexibility at Elm Road Generating Station
  - Elm Road units are expected to be fully transitioned away from coal by end of 2032
- Exploring converting the Columbia Energy Center from coal to natural gas
  - Repowering would eliminate coal-fired generation from MGE's portfolio of owned resources

The infographic is contained within a light gray box with a dark green border. It features three distinct sections, each with a green icon, a year, and a goal. The top section has a leaf icon, the year 2050, and the goal 'Net-zero carbon electricity'. The middle section has a flame icon, the year 2035, and the goal 'Net-zero methane'. The bottom section has a gas pump icon with a lightning bolt, the year 2030, and the goal '100% all-electric or plug-in hybrid light-duty vehicles'.

  
**2050**  
Net-zero carbon electricity

  
**2035**  
Net-zero methane

  
**2030**  
100% all-electric or plug-in hybrid light-duty vehicles

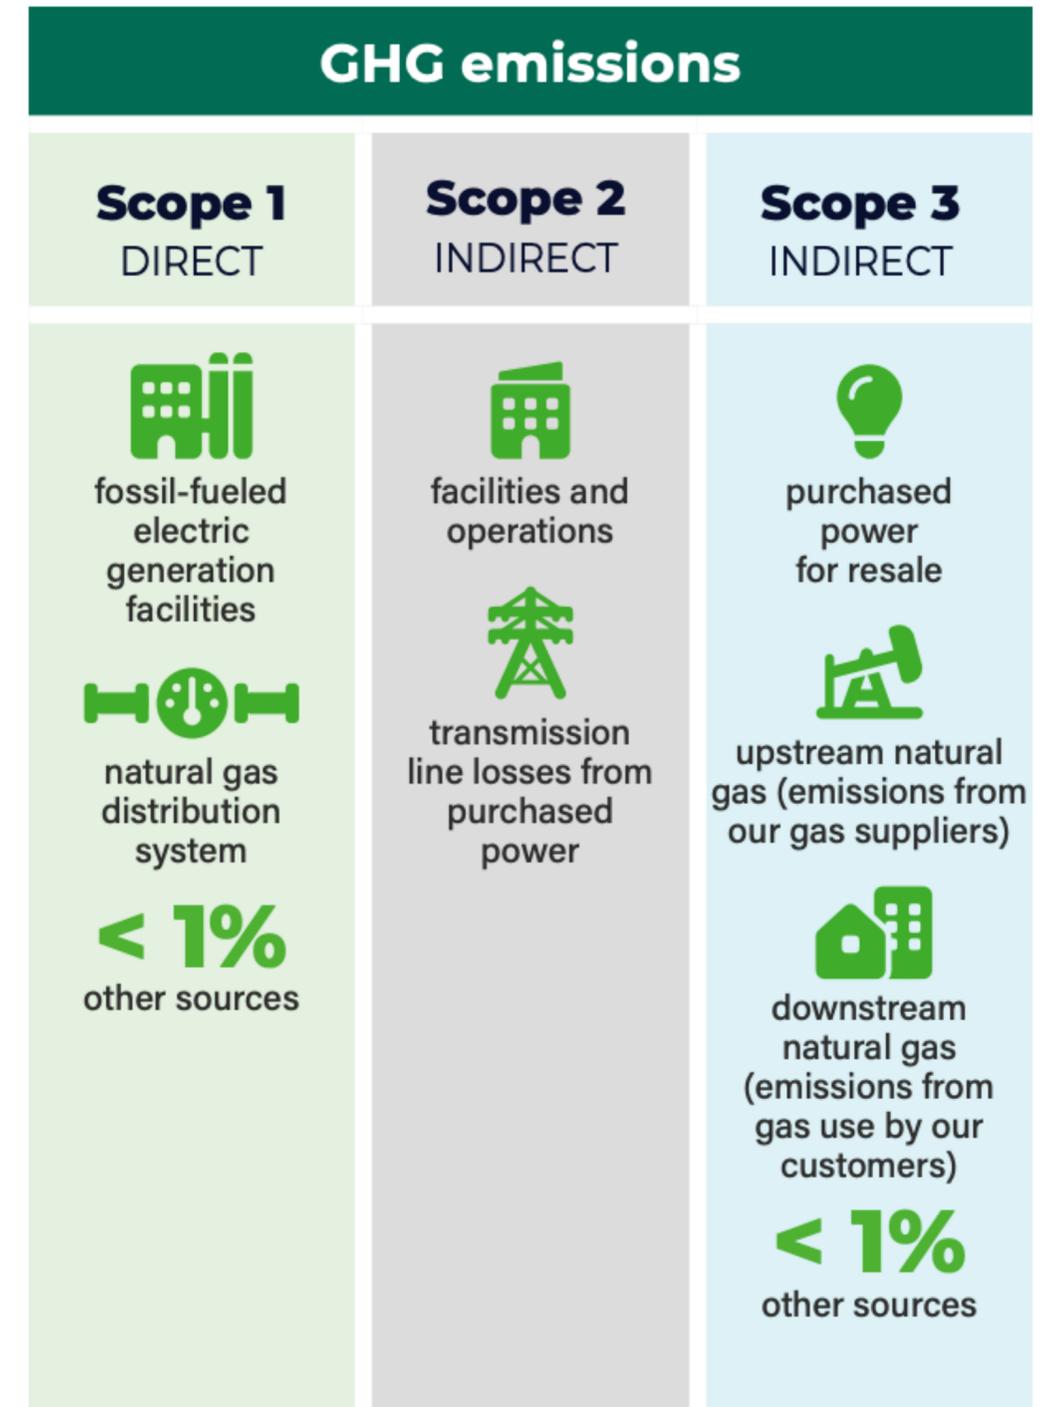

# Natural Gas Distribution – Emissions Reductions Beyond Carbon

Building upon our long-standing commitment to providing affordable, sustainable energy, MGE has set a goal to achieve net-zero methane emissions from its natural gas distribution system by 2035.

- MGE is working to reduce overall emissions from its natural gas distribution system cost-effectively as quickly as possible.
- If MGE can accelerate plans to achieve net-zero methane emissions from its natural gas system through the evolution of new technologies, it will.

Natural gas continues to be a critical resource for meeting reliable, efficient and affordable energy needs. About half of U.S. households use natural gas for heating.

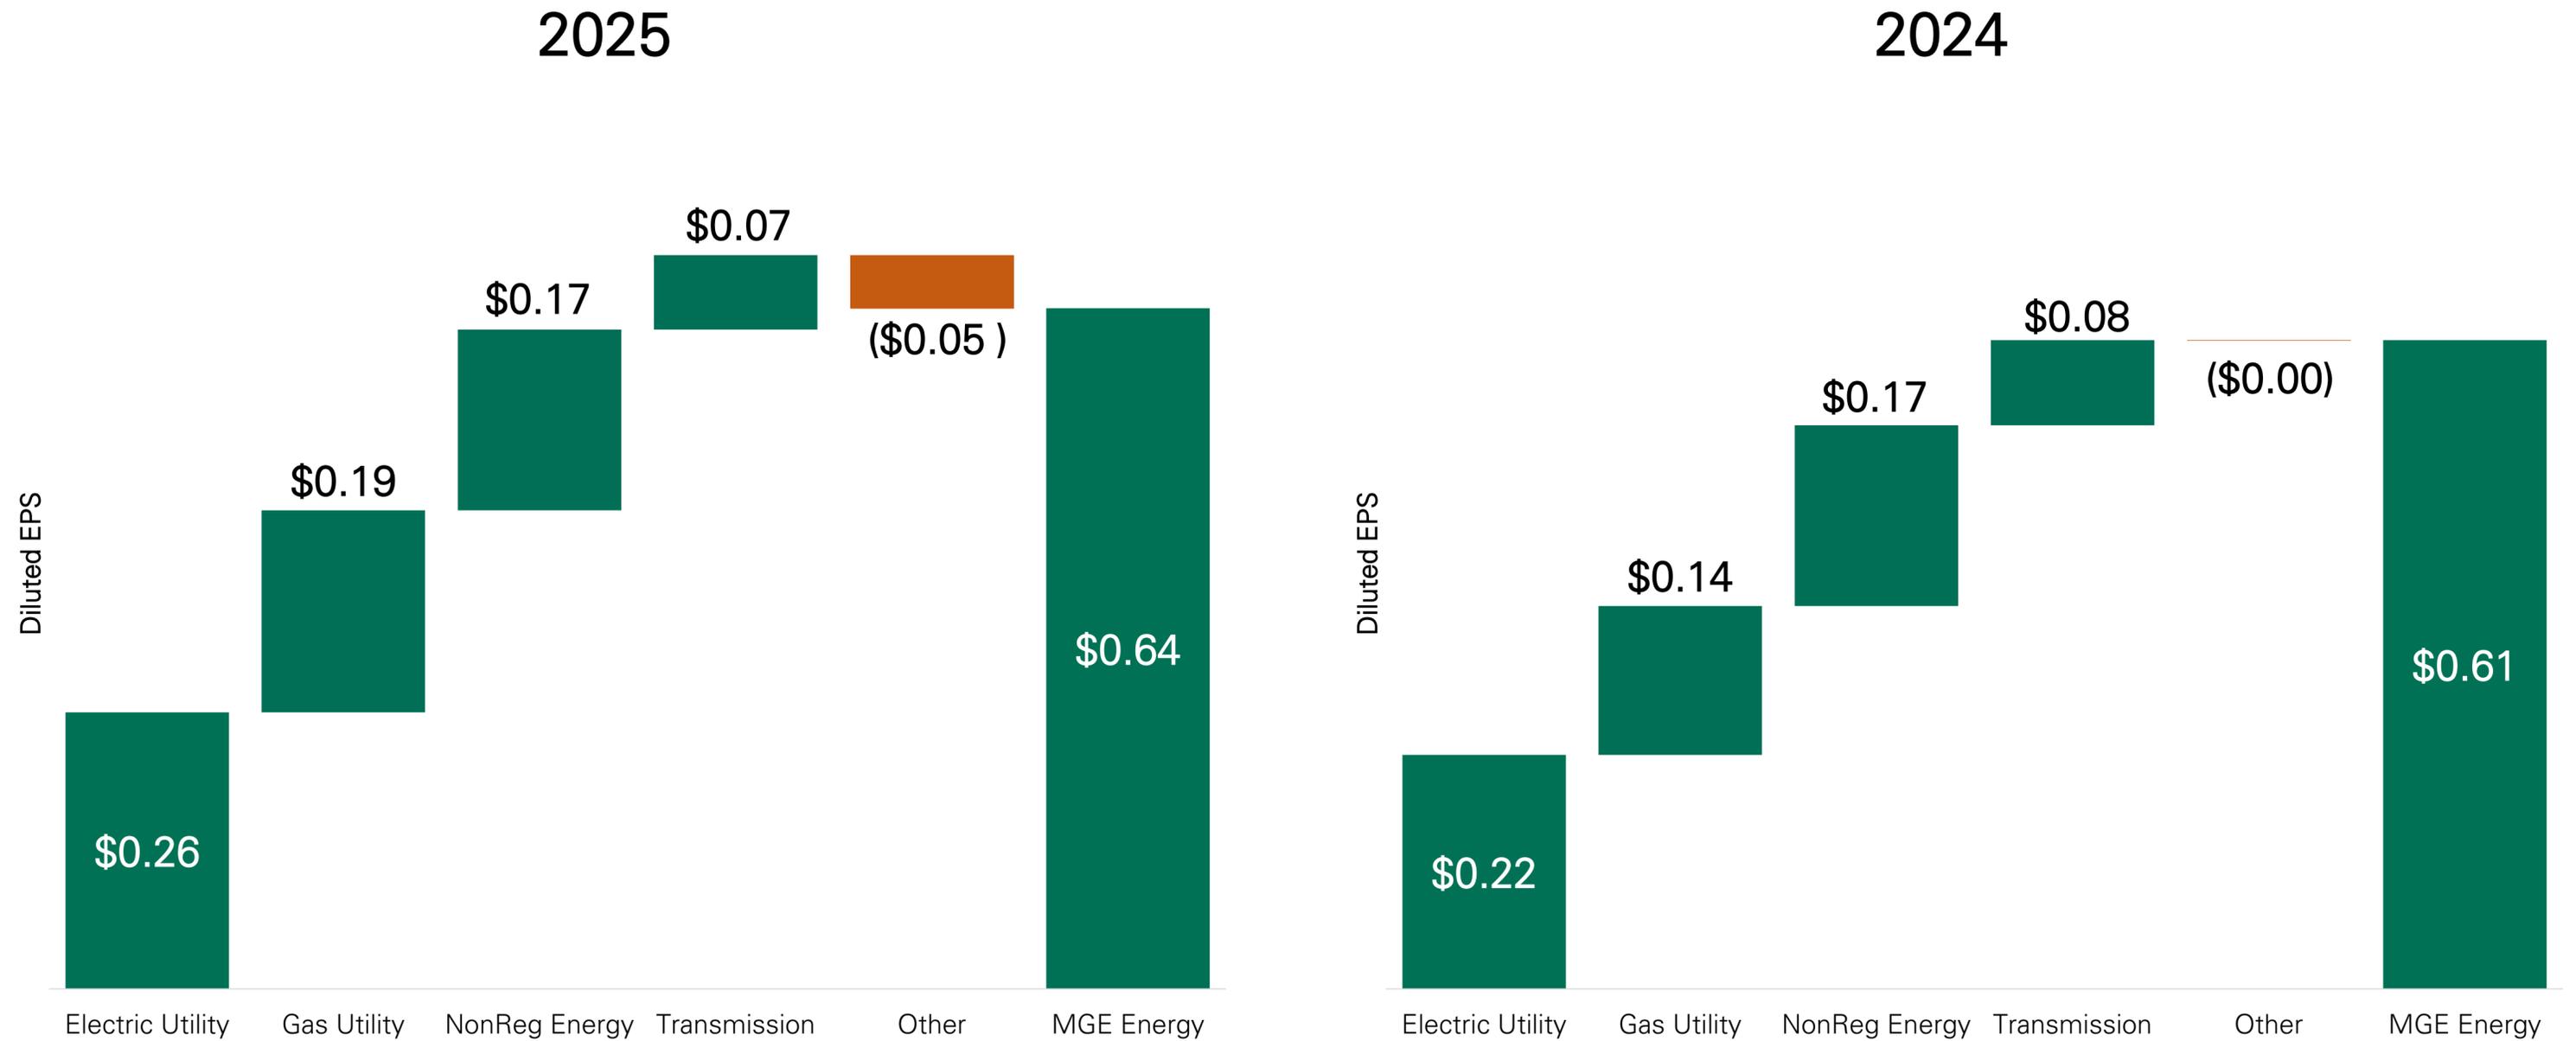

- In 2022, MGE completed an in-depth analysis and inventory of GHG emissions associated with the purchase and distribution of natural gas and other sources, such as indirect emissions from gas usage by our customers.
- MGE has replaced and upgraded all piping made of material considered leak-prone throughout its distribution system.
- MGE's leak inspection schedule already exceeds federal requirements.
