MGE Energy Reports First-Quarter Earnings

Madison, Wis., May 7, 2015—MGE Energy, Inc. (Nasdaq: MGEE) today reported earnings for the three months ended March 31, 2015, of \$18.3 million, or 53 cents per share, compared to \$27.7 million, or 80 cents per share, for the same period in the prior year.

During the first quarter of 2015, gas net income decreased due to a 20.7% decrease in gas retail sales reflecting lower customer demand compared to the demand resulting from the extremely cold weather experienced in 2014. The average temperature in January was 20.1 degrees compared to 11.5 degrees in the prior year. Normal average temperatures in January is 19.6 degrees. Electric net income was also lower in part due to lower customer demand when compared to the much colder weather in 2014.

Also contributing to the decline in net income for the first quarter of 2015 was a decrease in lower allowance for funds used during construction and higher depreciation expense primarily related to the construction for the environmental controls at the Columbia Energy Center in 2014. The Columbia units were placed in-service in April and July 2014.
